& BUILDING MAINTENANCE

BUILDING THE FUTURE TOGETHER

ABOUT US

We are specialized in supplying air-conditioning & refrigeration equipment, Spare parts and accessories related to HVAC systems. We are collaborating with well-known international manufacturers providing quality products and services to major projects and clients in Qatar. Our main business objective is to provide our clients with the right quality products that add value to their business considering excellent clients relationship.

PRODUCT CATALOGUE

- Compressors and motors.
- Refrigerants and oils.
- Copper tube, fittings and alloys.
- Insulation material.
- Controls and instrumentation tools, etc.

OUR SERVICES

We have excellent coordination with international/local manufacturers and suppliers. Our team is committed and can utilize the strong relations available in-house to support your needs. Our team can support full chain of supply starting from sourcing from manufacturers, order follow up, product inspection, shipping, insurance and documentation.

AIR CONDITIONING AND REFRIGERENT COMPRESSORS

We are specialized in supplying wide range of compressors and condensing units for a wide range of commercial air conditioning and refrigeration application.

We provide highly efficient, silent and reliable compressors complying with local regulations.

REFRIGERENTS AND LUBRICANTS

We provide well-established brands of refrigerants and specialty gases.

We supply refrigerant gases that have been developed to satisfy the requirement of various industrial sectors.

The range of Refrigerants include R22, R134A, R407C, R404A, R410A, R417A, R600, R290, R32 etc

We supply SUNISO Oils, which are premium quality oils expressly designed for use as refrigeration compressor lubricants. All major air-conditioner, refrigerator, freezer, car air-conditioner manufacturers in the world, approve SUNISO Oils.

We supply External & Internal Evaporator and Condenser Coil-Cleaners.

It is have heavy duty cleaner and brightener for finned, air-cooled condenser coils and electronic air filters.

CONTROLS AND INSTRUMENTATION TOOLS

We offer the HVAC industry's most comprehensive line of building Filter driers, Drier core, Control valves, Thermostats, PC-Boards, Actuators, Dampers, Sensors, Economizers, Variable frequency drives, Spring mounts, Rubber pads coming from internationally reputed manufacturers.

We offer comprehensive range of tools for refrigeration and air-conditioning, which includes special items ranging from gauges, manifold gauges, tube cutter, flaring tool, leak detector, and special tools.

CONTACTORS AND OVERLOAD RELAYS

We provide a wide range of contactors and overload relay for switches and electrical power circuit such as 24 volt and 220/240v coil electromagnetic controlling, motor switch, etc. We work with leading brands for contactors, overloads and auxiliary contacts.

SIEMENS

Togami

ABB

FAN MOTORS AND BLADES

We provide a wide range of motors and respective blades or blowers for refrigeration, air conditioning and industrial ventilation, which consist of outdoor units, window AC, fan coil units, air curtains, ductable units, water coolers, deep freezers, cooler pump, indoor units, etc.

CAPACITORS

Our capacitors are subjected to extensive and vigorous testing, as a result, we are able to provide the industry with capacitors that are compatible in terms of quality, durability and reliability. Application include air conditioning, motors, compressors, air handlers, refrigeration units, furnaces, machine tools, conveyors, heat pumps, etc.

INSULATION MATERIAL SHEETS AND TUBINGS

We provide a wide range of insulation including (but not limited to) K-flex which is specialized in the manufacturing of polyolefin and Rubber insulation. We supply Aerolam xlpe which is one of the finest range of premium polyethylene foam, which can be used in various applications: HVAC, construction, industrial, automotive etc.

We stock the most comprehensive full line HVAC insulating materials and systems.

COPPER TUBES AND FITTINGS

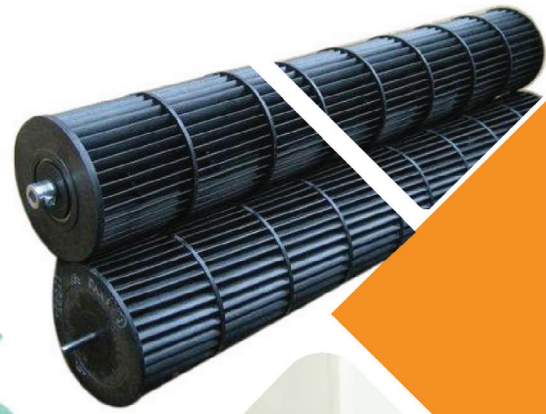

We provide well-established brands that manufacturer high quality copper coils, copper pipes, copper fittings and alloy products. Our products are applied to an array that is compatible with CFC-free 410 refrigerants for VRV, VRF, Split A/C and refrigerator.

Copper tubes are designed to withstand design condition reliability and give product a longer life span.

AL FAYTRI
الفيتري

We can help you at the following:

- Sales of Heating, Ventilation and Air Conditioning Spare Parts.
- Providing consultation for equipment/spare part selection.
- Providing full admin and finance support for clients, contractors and consultants.
- Providing purchase and delivery services.
- Providing after sales service and support.
- Providing service and maintenance of AC systems.
