 Car Elevator

 Escalator / Moving walk

RISING INTO THE FUTURE

COMPANY PROFILE

FUJIRE is a professional elevator manufacturer from China, focusing on elevator R & D, manufacturing, sales, installation and maintenance services. Customer focus, customer satisfaction as the evaluation criteria for product and service work, determined to provide reliable and diverse products for the world.

The elevator test tower of FUJIRE is 89 meters high and the elevator running speed at 7m/s. Products include high-speed passenger elevator, residential elevator, hospital elevator, freight elevator, observation elevators, villa elevators, escalator, moving walk, machine roomless freight elevator, hydraulic elevator. At present, FUJIRE elevators have covered more than 20 countries in the world. At the same time, they have has obtained CE and TUV certification, and have reached the advanced level both at home and abroad. And has the advantage of green energy saving and so on.

FUJIRE will develop in the direction of production, energy saving, pollution reduction, low noise, long service life and green environmental protection. We apply the technology of IT environment energy to the elevator, escalator, building comprehensive management service and so on. We are committed to using advanced technology for urban development service .

Our mission

Provide more secure carrying for customers.

Our service standards

Be prepared to solve the problem first and then divide the responsibility.

Our product concept

Quality is the life of an enterprise

ADVANCED EQUIPMENT

If you want to win the battle, you shall sharpen your weapons first. FUJICN Elevator introduces the advanced imported international digital control equipment. It gets advanced devices such as effective; energy-saving; environment-protection permanent magnet synchronous and gearless motive drive system, fully automatic gold-copper wire welding machine, discrete device sorting machine, testing facilities, constant temperature purifying environment etc. It guarantees superior product quality. High starting point and large investment show determination of FUJICN Elevator to pursue perfection and manufacture excellent elevators.

① Workshop

② Robot

③ Tooling for turret punch

④ CNC bending machine

⑤ Escalator production workshop

ADVANCED TECHNOLOGY

GREEN ENERGY SAVING

Gesture call recognition system

Users can use simple gestures to control the interaction with the elevator so that the call panel can understand human behavior. Its core technologies are gesture segmentation, gesture analysis and gesture recognition. Using elevators without contact is safe and sanitary, and can avoid bacterial infection in crowded places.

Aerial imaging control screen

Adopting the world's leading interactive aerial imaging technology, the operation interface of various equipment can be directly imaged in the air, and the user can complete the control in the air without any contact in the whole process. The interaction is sensitive, with a sense of technology, stable, safe and reliable in use.

Elevator Automatic Rescue Device

When the elevator is out of power, ARD automatically starts rescue, voice reminds the trapped person, relieves the passenger's emotions, and the elevator runs to the nearest floor to automatically open the door.

ID / IC card identification (optional)

ID / IC card controls the elevator use. Only ID / IC card only use the elevator. It vigorously strengthens the security of the building management. The users can be rest assured in using the elevator.

SMALL MACHINE ROOM PASSENGER ELEVATOR

FUJICN Elevator small machine room passenger elevator helps you to enhance engineering efficiency, quicken construction speed. It guarantees smooth operation of building project. It does not affect the project progress because of elevator installation. Meanwhile, when the building needs to be renewed / reconstructed, host of FUJICN Elevator small machine room passenger elevator can be easily moved out, conveniently renewed from machine room. Regarding traditional host, it can only be fixed in machine room.

It greatly saves the space

The compact permanent magnet synchronous and gearless host leaves a large space for machine room. When hoisting equipment installs it from the building top, such handy host requires much smaller hoisting equipment than that of traditional machine room device. It even can be directly hoisted from the well.

- ◆ All digital control
- ◆ Energy-saving permanent magnet synchronous and gearless traction machine
- ◆ Effective permanent magnet variable frequency door machine
- ◆ Individual decoration

MACHINE ROOMLESS PASSENGER ELEVATOR

Greatness in trivialness, intellectual and outstanding

The application of FUJICN Elevator machine roomless elevator saves a machine room at the construction top. We apply the world's top-grade design concepts and the well-developed control technology, especially permanent magnet synchronous and gearless drive system, the excellent and top-grade fully computerized data network system with the outstanding combined properties. It gives a full play of the humane intelligence and foreseeing ideas of low carbon environmental protection. The serial goods have the distinguished advantages such as effective, space & energy saving, safe and comfortable and so forth.

- ◆ Wells optimal design has effectively save 10% of construction areas.
- ◆ Being equipped with green drive and energy conservation devices, energy conservation has reached 30%.
- ◆ Machine room-less concept makes the design of building more free and comfortable.

PASSENGER ELEVATOR CAR DECORATION

FUJIRE -K001 (Standard)

Ceiling: Hairline stainless steel, acrylic transparent board, LED lighting
 Car door: Hairline stainless steel
 Car wall: Hairline stainless steel
 Floor: PVC (marble optional)

FUJIRE -K002 (Optional)

Ceiling: One-piece condole top, painted steel, Acrylic, LED lights
 Car wall: hairline stainless steel
 Floor: PVC (marble optional)

PASSENGER ELEVATOR CAR DECORATION

FUJIRE -K005 (Optional)

Ceiling: Mirror stainless steel, acrylic lighting, LED lights on both sides
 Car panel: Hairline stainless steel, mirror stainless steel combination
 Floor: PVC (optional marble)

FUJIRE -K006 (Optional)

Ceiling: Acrylic lighting, acrylic arched roof
 Car wall: Mirror stainless steel, hairline stainless steel
 Handrail: Stainless steel flat handrail
 Floor: PVC floor (optional marble)

FUJIRE -K003 (Optional)

Ceiling: Mirror stainless steel, LED light, acrylic transparent board
 Car wall: Hairline stainless steel, mirror stainless steel
 Handrail: Stainless steel flat handrail
 Floor: PVC floor (optional marble)

FUJIRE -K004 (Optional)

Ceiling: Hairline stainless steel, acrylic light decoration
 Car wall: Hairline etched stainless steel, artistic veneer decoration
 Handrail: Stainless steel flat handrail
 Floor: PVC (optional marble)

FUJIRE -K007 (Optional)

Ceiling: stainless steel plate, acrylic transparent plate, high-efficiency energy-saving LED lighting
 Car wall: Hairline stainless steel, mirror etching
 Floor: PVC (marble optional)

FUJIRE -K008 (Optional)

Ceiling: Suspended square image main body lamp board and soft light lighting design combined with downlight
 Car Wall: Hairline stainless steel on both sides, back wall hairline stainless steel and mirror etching combination
 Floor: PVC floor (optional marble)

PASSENGER ELEVATOR CAR DECORATION

FUJIRE -K009 (Standard)

Ceiling: mirror stainless steel frame, LED, acrylic
Car wall: hairline stainless steel, mirror stainless steel
Handrail: stainless steel flat handrail
Floor: PVC (optional marble)

FUJIRE -K010 (Optional)

Ceiling: Mirror stainless steel frame, LED, acrylic
Car wall: Hairline stainless steel, mirror stainless steel
Handrail: Stainless steel flat handrail
Floor: PVC (optional marble)

PASSENGER ELEVATOR CAR DECORATION

FUJIRE -K013 (Optional)

Ceiling: stainless steel frame, acrylic lighting panel in the middle, downlights on both sides
Car wall: combination of hairline stainless steel and mirror-etched stainless steel
Front wall, car door: Hairline stainless steel
Floor: non-slip stainless steel

FUJIRE -K014 (Optional)

Ceiling: mirror stainless steel frame, acrylic lighting
Car wall: hairline stainless steel, mirror-etched stainless steel
Handrail: stainless steel single tube handrail
Floor: PVC floor (optional marble)

FUJIRE -K011 (Optional)

Ceiling: mirror stainless steel frame, LED light
Car wall: mirror stainless steel, frosted
Floor: PVC (optional marble)

FUJIRE -K012 (Optional)

Ceiling: Hairline stainless steel frame, embellished with downlights on four sides
Car wall: combination of hairline stainless steel and mirror-etched stainless steel
Front wall, car door: Hairline stainless steel
Floor: non-slip stainless steel

FUJIRE -K015 (Optional)

Ceiling: Hairline stainless steel, acrylic lighting
Car wall: black titanium mirror stainless steel, marble
Handrails: stainless steel flat handrails (both sides) (optional)
Floor: PVC (optional marble)

FUJIRE -K016 (Optional)

Ceiling: mirror stainless steel frame, acrylic lighting
Car wall: hairline stainless steel, mirror-etched stainless steel
Handrail: stainless steel single tube handrail
Floor: PVC floor

PASSENGER ELEVATOR CAR DECORATION

FUJIRE –K017 (Optional)

Car wall: Etched Titanium Gold Mirror Stainless Steel
Ceiling: Steel plate baked enamel framework, stainless steel mirror hollowed hole top plate
Handrail: Titanium Gold Stainless Steel with Round Type
Floor: Standard PVC

FUJIRE –K018 (Optional)

Ceiling: Titanium mirror stainless steel frame, LED lights
Back wall: Titanium gold-plated stainless steel, titanium mirror finish
Side wall: Titanium gold-plated stainless steel, titanium mirror finish
Car door: Titanium blonde stainless steel
Floor: PVC (optional marble)

FUJIRE –K019 (Optional)

Ceiling: Titanium mirror frame, LED light, acrylic
Car wall: Titanium and grain mirror stainless steel, titanium mirror stainless steel
Handrail: Titanium round tube handrail
Floor: PVC (optional marble)

FUJIRE –K020 (Optional)

Ceiling: Titanium mirror stainless steel frame, acrylic lighting, LED light
Car wall: Titanium mirror etching stainless steel
Handrail: Stainless steel wood combination handrail
Floor: PVC floor (optional marble)

PASSENGER ELEVATOR CAR DECORATION

FUJICN–K021 (Optional)

Ceiling: Titanium gold grain stainless steel, acrylic transparent plate, LED light
Car wall: Titanium gold grain stainless steel, titanium mirror stainless steel
Floor: PVC (optional marble)

FUJICN–K022 (Optional)

Ceiling: Champagne gold mirror stainless steel, ceiling lamp
Car wall: Champagne gold mirror stainless steel, champagne gold stainless steel etching
Handrail: Acrylic single tube
Floor: PVC (optional marble)

FUJIRE –K023 (Optional)

Ceiling: Titanium mirror border, transparent plate, LED lights
Car wall: Titanium printing stainless steel, titanium mirror etching
Floor: PVC (optional marble)

FUJIRE –K024 (Optional)

Ceiling: Rose gold mirror stainless steel frame, LED
Back wall: Rose gold-brushed stainless steel, rose gold mirror etching
Side wall: Rose gold pattern stainless steel, rose gold mirror etching
Floor: PVC (optional marble)

PASSENGER ELEVATOR CAR DECORATION

FUJIRE –K025 (Optional)

Ceiling: Mirror titanium stainless steel frame, acrylic lighting
 Car wall: Mirror, etching, Titanium
 Handrail: Titanium stainless steel tube
 Floor: PVC (optional marble)

FUJIRE –K026 (Optional)

Ceiling: Titanium and stainless steel frame, acrylic lamps, LED lights
 Car wall: Titanium, mirror, etching
 Handrail: Rosewood titanium stainless steel handrail
 Floor: PVC (optional marble)

PASSENGER ELEVATOR CAR DECORATION

FUJIRE –K029 (Optional)

Ceiling: Paint wood (plain), bronze hairline stainless steel frame, LED lights, hidden lights
 Car wall: Wood finishes (Ash), bronze hairline stainless steel frame, car border, etched mirror stainless steel
 Handrail: Brass handrails
 Floor: PVC (optional marble)

FUJIRE –K030 (Optional)

Ceiling: Rose gold mirror stainless steel frame, acrylic translucent panels
 Car door: Rose gold mirror
 Car wall: Rose gold mirror etching, marble
 Handrail: Rose gold-plated handrails
 Floor: PVC (optional marble)

FUJIRE –K027 (Optional)

Ceiling: Spray stainless steel, mirror stainless steel, LED lights
 Car wall: Titanium mirror stainless steel, titanium mirror etching
 Floor: PVC (marble optional)

FUJIRE –K028 (Optional)

Ceiling: Metal paint shape, stainless steel metal decoration, hidden lamp with lighting
 Car wall: Marble inlaid stainless steel metal bars, champagne gold sandblasted stainless steel
 Handrail: Acrylic armrest
 Floor: PVC floor(optional marble)

FUJICN-K031 (Optional)

Ceiling: Champagne gold mirror stainless steel frame, acrylic translucent sheet
 Car wall: Champagne gold mirror stainless steel etching combination
 Handrail: Titanium stainless steel single tube
 Flooring: PVC floor(optional marble)

FUJICN-K032 (Optional)

Ceiling: Mirror stainless steel frame, ceiling light, LED light
 Car wall: Mirror stainless steel on both sides, wood frame in the middle + titanium mirror etching
 Handrail: Wooden titanium gold mirror combination single tube
 Floor: PVC floor(optional marble)

OBSERVATION ELEVATOR CAR DECORATION

Different model design

The stylish and generous design style is available for customers to choose from, and the blue display part is for sightseeing glass.

Semi-circular shaped

Square shaped

Cutting-angle-type

Panoramic

◀ FUJIRE -G001 (Standard)

Sightseeing wall: Round laminated safety glass (3 pieces)
Decorative top: Mirror stainless steel, LED lights
Car wall: Hairline stainless steel
Handrail: Stainless steel round tube
Floor: PVC floor

OBSERVATION ELEVATOR CAR DECORATION

FUJIRE -G002 (Optional)

Car cover: Titanium, acrylic round cover
Observation wall: Safety laminated glass
Decoration roof: Mirror stainless steel frame, LED
Car wall: Titanium gold pattern stainless steel, safety laminated glass
Floor: PVC (optional marble)

FUJIRE -G003 (Optional)

Upper and lower cover: Steel plate paint
Sightseeing wall: 6+6 safety laminated glass
Decorative top: Steel painted frame, acrylic lighting
Car wall: Hairline stainless steel
Handrail: Stainless steel three tubes
Floor: PVC

FUJIRE -G004 (Optional)

Car cover: circular corner cut, steel plate baking finish, acrylic translucent cover
Observation wall: circular laminated safety glass (3 pieces)
Decoration roof: steel plate baking finish frame, acrylic roof and LED lighting
Car wall: hairline stainless steel
Handrail: $\phi 38$ stainless steel pipe
Floor: PVC

FUJIRE -G005 (Optional)

Car cover: Steel plate paint, lighting
Observation wall: Safety laminated glass
Decoration ceiling: Sprayed steel plate, acrylic top plate, downlight
Car wall: Hairline stainless steel
Handrail: 38 stainless steel single tube
Floor: PVC floor

FUJIRE -G006 (Optional)

Car cover: Baked enamel steel plate, acrylic lighting decoration
Panorama wall: Toughened laminated glass
Decoration roof: Painted steel plate, acrylic, LED lighting
Car wall: Hairline stainless steel
Handrail: Stainless steel round tube
Floor: PVC (optional marble)

FUJIRE -G007 (Optional)

Car cover: Titanium, acrylic round cover
Panorama wall: Circular safety glass
Decoration roof: Spraying steel plate, acrylic light board
Car wall: Titanium mirror stainless steel, titanium etching
Handrail: Titanium armrest
Floor: PVC (optional marble)

HOSPITAL ELEVATOR CAR DECORATION

◀ FUJIRE -Y001 (Standard)

Ceiling : Stainless steel frame, Acrylic top panel and lighting decoration
Ventilation : Axial fan
Car wall : Hairline stainless steel
Handrail : Stainless steel flat handrail
Floor : PVC

HOSPITAL ELEVATOR

FUJICN Hospital elevator, designed for hospital, medical office, rehabilitation center, nursing homes and other places. It is not only used to convey the passengers. It has been put with the special and strict requirements because of its special use, function and performance. FUJICN Hospital elevator can accurately control the elevator running speed with smooth and comfortable operation.

FUJICN Hospital elevator lays stress on the humane design. It fully optimizes the car structure and satisfies the customer's using demands to the max. extent. It provides the passengers with a quiet and elegant space. It creates a harmonious unity to the hospital environments by its unique design idea. It brings about a bright and clean space. It furnishes the passengers with a cozy atmosphere to make patient feel more happy.

▶ FUJIRE -Y002 (Optional)

Ceiling : Paint steel plate, down lamp
Ventilation : Axial fan
Car wall : Hairline stainless steel
Handrail : Stainless steel flat handrail
Floor : PVC

FREIGHT ELEVATOR

Super-strong loading capacity multiple considerations

We apply the fully computerized modular elevator special control system, effective and reliable drive mode, sensitive and flexible VVVF variable frequency door machine for FUJICN Elevator serial freight elevator so that our elevator can have relaxed transport under various work conditions. High strength car structure, anti-collision strip, photocell door setting can satisfy all kinds of the freight transport. They are also applicable for different building structures. As a result, we can tackle more and more transport tasks at ease and create a completely new freight carrying concept as well.

- ▶ Safe and reliable structure, high strength
- ▶ Durable, smooth operation
- ▶ Open the door away from large, cost-effective
- ▶ Complete specifications, reliable performance

Various ways of door open

Side opening door

4-panels center opening door

Single opening door

Through opening door

MACHINE ROOMLESS FREIGHT ELEVATOR

It arouses infinite possibilities. Machine roomless is more powerful than the elevator with machine room

FUJICN Elevator machine roomless freight elevator takes low carbon environment protection as design concept. It saves energy and reduces loss. It utilizes the well space to the greatest extent. It regards saving the building area and decreasing the building cost as ultimate goal. It gives a full play of green humane spirits of the products. Compared with geared elevator with same load level, it can save 40% of electric energy, 10% of building area.

FUJICN-H001 (Standard)

Ceiling: Textured stainless steel, LED lights
 Back wall: Textured stainless steel
 Side wall: Textured stainless steel
 Car door: Textured stainless steel
 Floor: Checkered steel plate

ESCALATOR

Superior performance, for the smooth line escort

In accordance with the existing international standards and Chinese standards, new materials and advanced technology from domestic and overseas are fully applied to design and manufacture FUJICN escalators. The escalator has the features, such as smooth running, low noise, fine durability, easy maintenance etc.

With the compact structure, fine step rail and belt way, beautiful appearance and contemporary design, FUJICN escalators are widely used in shopping malls, supermarkets, subways, airports and other high traffic sites, becoming bright flowing scenes of the constructions.

Efficiency comparison conceptual diagram between helical gear speed reducer and worm-gear speed reducer

Variable frequency specification running conceptual diagram

MOVING WALK

Advantageous performances of travelator

Compact structure, reduce space: FUJICN Elevator pedestrian short sidewalks to narrow the space span, so that the whole structure is more compact, flexible to adapt to the architectural pattern, for customers to save valuable building space. Divided into horizontal, inclined two product planning series, allows customers to choose according to their layout ideas.

Stability, long life: short pedal and the conveyor chain is directly connected, FUJICN Elevator automatic sidewalk more quiet and stable operation, the whole life cycle can be greatly extended, product maintenance and more convenient. Special design of the large roller handrail drive, low noise operation, driving force, to improve the operating conditions of the escalator, so that the handrail with a longer life. Unique rectangular square tube structure with a strong load capacity, greatly improving the stability of the whole machine to run and extend the service life of the product. Diverse styles, nice: stamping pattern front plate, nice, more three-dimensional sense. Inside and outside the cover with high-quality stainless steel, to meet the individual needs of different environments.

Energy saving and environmental protection, reduce costs: FUJICN Elevator automatic sidewalk products make full use of advanced manufacturing technology, greatly improving product performance and extend the life cycle of the machine, the direct effect is to reduce the customer's operating costs, the choice of variable frequency drive technology, Energy-saving effect is significant, the maximum to reduce the machine's operating costs.

SERVICE SYSTEM

STAR SERVICE, FULL WORRY-FREE

High quality originated from professional works. The company is firmly convinced that good service and good elevator mean truly good quality. In continuous perfection, it establishes well-developed service system. It takes the clients' requirements as service pursuit, winning great satisfaction from vast clients as the service objective. We wholeheartedly finish the best service each time. We guarantee to provide the clients with the most superior and comprehensive services as soon as possible.

Please have faith in FUJICN Elevator. Our service is always on the way. We offer support when you need us. Our good service has no bound.

After-sale service network that covers all over the country

Before-sale Sincere communication rational advice

Focusing on the customer need, we will make the professional analysis on our customer so as to provide the personalized and suitable solution.

Mid-sale Professional service full-process support

We can serve various construction projects with the high-efficiency, high-standard and high-safety installing service. We will also provide the customer with professional training of installation usage in a most overall manner.

After-sale Real-time response considerate service

According to the principle of real-time response, we have provided the service of 24-hour hotline, speedy repair and maintenance as well as accessory supply.
