EMPOWERING
THE ENERGY
INDUSTRY

Message from Our Managing Director

Axiom International W.L.L reflects the development of Qatar itself and is one of the leading suppliers for Oilfield solutions in the region and we are proud enough and privileged to be part and parcel of the industrial development of the country. We expanded our business and broaden our horizons by founding trade associations with leading manufacturers for supply of expanded products and services over the years as a full-fledged trading and commercial organization in the Middle East within the short span of time. With the rapidly broadening economic horizon in the state of Qatar, Axiom is perfectly positioned ourself to oblige business and projects in the oilfield and energy sector. We are well-appointed to provide the precise products and services to our partners in progress on accurate time with modest price, to part a bright business future.

We are working on a resilient pipeline of new products and services keeping in view of the varying market, customer's objectives and needs with relevant and exciting products and services for our esteemed customers. Axiom International W.L.L is committed to be a socially responsible corporate citizen, by converging care for the environment and safety.

Manikantan A P

Managing Director

EMPOWERING THE ENERGY INDUSTRY

BALIGA LIGHTING EQUIPMENT PVT. LTD INDIA

EXPLOSION PROOF EQUIPMENT AND FLOW ELEMENTS

LIGHTING EXPERTS

Baliga are the pioneers in India in the manufacture of explosion proof lighting equipment designed for use in potential explosive industrial environment since 1962. Their rigid and continuous quality control procedures have earned for Baliga a redoubtable reputation in industries such as Oil Refineries, petrochemical Plants, Onshore/Offshore Oil Production platforms, Gas Plants, Fertilizer plants, Power and Other Utility industries.

PRODUCT DIVISIONS

Electrical Products

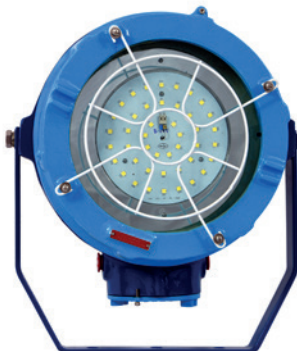

1. EXD (Flame Proof)
2. EXE (Increased Safety)
3. Non-Explosion proof (Weather Proof) equipment

PANELS

1. EXD MCC, Lighting Distribution Boards
2. EXD Control Panels for annunciation, soot blower application with and without PLC
3. EXP Purged Panels

LPG

From fixed systems of 4,3,2 or single gun systems to a FLP portable system has been designed and supplied by us to more than 125 plants all over India and to Malaysia, Sri Lanka, UAE and Oman.

EMPOWERING THE ENERGY INDUSTRY

BICC COMPONENTS

BICC COMPONENTS INDIA

BICC components Limited (BCL) manufactures & distributes a wide range of BICC industrial Cable Glands, BICC cable Cleats, BICC Cable connectors and associated accessories. Our exclusive range of products find their way into many markets including oil refineries, petrochemical industry, power stations, water treatment works, mines and quarries.

BW Type brass gland for indoor use with all kind of steel wire armoured (SWA) cable and aluminium wire armoured (AWA) cable.

CW type brass cable gland for uses with steel wire armoured cable (SWA)

A2 type brass cable gland for use with all types of unarmoured cable

E1W type brass cable glands for use with all types of armoured cables.

EMPOWERING THE ENERGY INDUSTRY

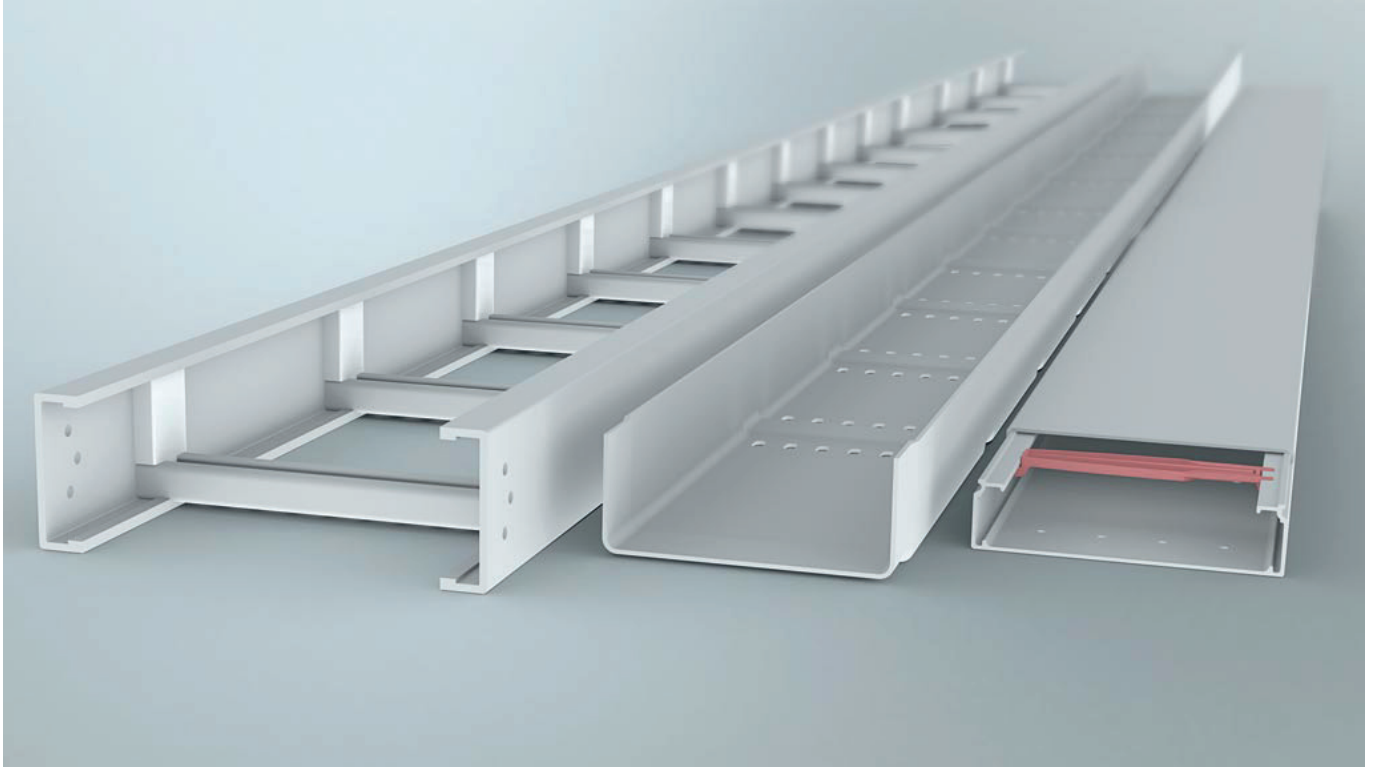

Cortem S.p.A by constant technical innovation design manufacture and supply electrical equipment for areas with danger of explosion and fire with ATEX/IEC Ex certifications. Cortem production range:

1. Ex-Proof Lighting Fixtures
2. Safe area Lighting Fixtures, Obstruction Lighting fixtures
3. Flood Lights and hand lamps
4. Junction and pulling boxes, control stations.
5. Signaling and control equipment, plugs and sockets.
6. Electrical fittings
7. Weatherproof series fittings.
8. Special products, switchgears and panel boards according to customers specifications.

EBO SYSTEMS FRANCE

Established in 1959 in Switzerland, EBO Systems S.A.S. is a global market leader in the field of glass-reinforced plastic (GRP) cable support systems has been part of the Niedax Group since 2010. With an extensive and varied product line, the company covers a wide range of highly specialised line and cable .routing applications in excellent quality GRP.

GRP cable support systems are extremely hard-wearing - few other materials are as robust as glass-reinforced polyester. GRP can withstand exposure to harsh conditions such as heat, sunlight, cold or aggressive chemicals without any loss of performance - and that over decades.

OUR PRODUCTS:

1. K2 – FRP / GRP Cable Tray
2. KP – FRP / GRP Cable Tray
3. UL – FRP / GRP Cable Tray
4. BK – FRP / GRP Cable Tray
5. Cable Troughing SP
6. ML Cable Ladders

EBO SYSTEM – CABLE EXPERTS

1. Fire Resistant
2. Long service life
3. Insulation
4. Implementation
5. Robust

GOODRICH GASKETS INDIA

We have been catering to the needs of various customers from all walks of the industry. Some of our valued customers are from various sectors like Petroleum Refineries, EPCs and Oil & Gas End Users. We are equipped with state of the art machinery, handling facilities and expert engineers.

PRODUCTS

1. Ring Type Joint Gasket
2. Soft Cut Gasket
3. Non-Metallic Flat Gasket
4. Spiral Wound Gasket
5. Expanded PTFE
6. Metal Jacketed Gasket
7. Kammprofile Gasket
8. Metal Reinforced Gasket
9. Compression Packings
10. Monolithic Insulation Joints
11. Tanged Insert Graphite Gasket
12. Flange Insulating Gasket Kits
13. Precision Machine Parts
14. High Tensile Fasteners

**INTERTEC
GERMANY**

Enclosures

SAFE LINK: Complete Systems

Heaters

THERMOTEX

Cabinets and Shelters

INTERTEC is known for its environmental protection and temperature regulation solutions for sensitive field equipment. However, during 45+ years of activity, we have produced hundreds of solutions for uncommon protection requirements. This leaflet summarizes a few of the more exotic protection technologies we offer. INTERTEC fabricates enclosures using high grade GRP [glass reinforced polyester], material that is known for its outstanding performance in extreme situations.

SD SERIES SHADES

offers effective environmental protection combined with optimum free access to the instrument.

SD 18 SUNSHADE

offers effective environmental protection combined with optimum free access to the instrument.

CUBESHADE

Canopies of this series are ideal for protecting larger units. Due to the circumferential upturn and conical design, rain and melt water can easily drain away here.

EMPOWERING THE ENERGY INDUSTRY

Guardrails are specified in major highways and roads projects as safety barriers. The Guardrail system Guardrail system absorbs the impact of out-of-control vehicles while guiding the vehicle to safer stops. Proven results and consistent material quality

make steel Guardrail systems the right barrier choice. Dunes Guardrail offers a sophisticated, standardized approach to guardrail fabrication.

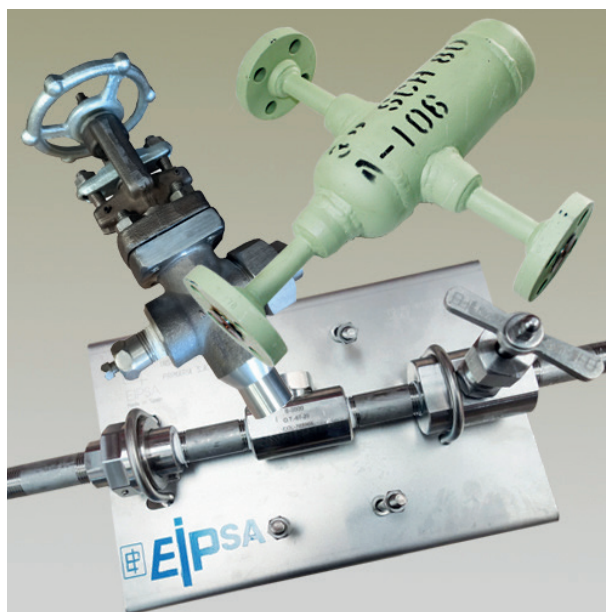

Restriction orifice plates are widely used for many applications within the industry. Although the design is very similar to a orifice plate the function is different

RESTRICTION PLATES ARE USED TO SUIT AND NUMBER OF DIFFERENT PURPOSES INCLUDING

1. Reduction of inline pressure
2. Control flow rates by restricting flow regardless of downstream conditions

DESIGN CONSIDERATIONS

1. Prevent critical flow
2. Removal of Cavitation
3. Reduce noise levels
