YEARS
LEGACY

Simplifying Intelligence

Presence Across GCC

Empowering businesses across the GCC with intelligent automation, enterprise mobility, identification technologies, software applications, and digital transformation solutions.

Business Divisions

Automatic Identification

Capture, track, & manage data accurately to improve visibility, accuracy, and operational efficiency.

Software Applications

Intelligent solutions that automate processes, enhance visibility, and drive business performance.

Communication & Engagement

Connect people, systems, & information to improve collaboration and customer engagement.

Identification & Security

Protect people, assets, and facilities through secure identification and access control solutions.

Strategic Alliances

Partnering with global technology leaders to deliver innovation, expertise, and greater business value.

Professional Services

Consulting, implementation, training, & support services that accelerate successful digital transformation.

Automatic Identification

Barcode Scanners & Printers

Fast and accurate barcode capture and printing for efficient operations.

Mobile Computers & Rugged Tablets

Durable mobile devices built for demanding industrial environments.

Wearable Terminals & Vehicle-Mount Terminals

Hands-free and vehicle-based computing for increased productivity.

RFID Printers, Fixed & Mobile Readers

Real-time asset tracking and identification with RFID technology.

Smart Sensors, Industrial Sensors & Detection Sensors

Intelligent sensing solutions for automation, monitoring, and safety.

Software Applications

FASoft

Asset Tracking System

Track and manage assets with barcode and RFID technology for complete visibility and control.

InventSoft

Inventory Tracking Solution

Maintain accurate real-time inventory visibility across warehouses and locations.

TrackSoft

Document Tracking Solution

Track and locate physical documents using RFID and barcode technology.

IWMS

Integrated Waste Management Solution

Monitor waste collection operations using RFID, sensors, and mobility solutions.

O1Docs

Document Management Solution

Digitize, organize, and secure documents with fast retrieval and controlled access.

RouteSoft

Van Sales Solution

Enable mobile invoicing, order management, stock control, and route optimization.

WDCSoft

Warehouse Data Collection Software

Automate warehouse operations with real-time data capture and ERP integration.

StockSoft

Advanced Stock Management Solution

Gain real-time control of stock movements, audits, and inventory levels.

Communication & Engagement

Honeywell Voice

Enable hands-free communication and workflow execution with voice-guided solutions that improve accuracy, safety, and productivity.

Audio Video Solutions

Enhance collaboration and communication through integrated conferencing, presentation, and audiovisual technologies.

Digital Signage Solutions

Deliver real-time information, promotions, and interactive content through dynamic digital displays.

Wireless Solutions

Provide secure and reliable connectivity for seamless communication across people, devices, and business operations.

Identification & Security

ID Card Printers

Print secure and professional employee, visitor, and membership identification cards with ease.

Biometric & Facial Recognition Access Devices

Enhance security by granting access only to authorized individuals through advanced biometric authentication.

Time & Attendance Software

Accurately track employee attendance, working hours, and workforce productivity in real time.

Cybersecurity Solutions

Protect business data, networks, and digital assets from cyber threats, breaches, and unauthorized access.

Strategic Alliances

CRAVE RETAIL

Smart Fitting Room

Enhance the shopping experience with interactive and personalized fitting room technology.

Laurel Retail

Self Checkout Solution

Enable faster, contactless, and efficient customer self-service checkout.

ClarityRFID

RFID Inventory Solution

Achieve real-time inventory visibility and improved stock accuracy with RFID.

TOOLSiD
INTELLIGENT SYSTEM

Smart Intelligent Cabinet

Securely manage, track, and control valuable tools and assets.

RoomAlert
We've got this.

IoT-Based Environmental Monitoring System

Enhance the shopping experience with interactive and personalized fitting room technology.

INNOVENT

RFID-Based Automation Solution

Automate tracking, identification, and operational processes using RFID technology.
