

BuildTech
Trading & Building Materials Co.

COMPANY PROFILE

Establishing close relationships with our clients is a key element to reaching total solutions. We cultivate each client relationship from the initial concept to completion, often maintaining this contact years after a project is finished.

We believe successful consulting is achieved through a balance of significant experience, a working knowledge of today's best practices, and access to cutting edge technology. We offer expertise that goes beyond "state of the practice" to include innovative solutions using techniques usually found in academic and research institutions. Accordingly, we take a proactive approach to staff recruitment and development, and maintain close ties to universities and national laboratories.
