Since the company's formation in 2002, CanAm Safety is operating under a simple formula offering comprehensive range of quality products backed by expertise and supported by unbeatable service.

This Successful combination has lead to CanAm being recognized as specialists in the field of H2S safety equipment.

Our extensive range of equipment from simple escape sets to full breathing air systems, rescue equipment and Gas detection are supplied with a comprehensive set of documentation including full operation instruction, test & service records, calibration certificates, and cylinder testing & air quality test certificates.

Details of all the maintenance and hire history are held on our extensive database, allowing us to instantly identify any areas of concern.

Our Services:

- Design and supply of all type of Breathing Air System (Offshore Platform, Shelter In Place etc.)
- Compute H2S safety equipment rental package with service support by experienced H2S/BA technicians for Plant shutdown (or) Turnarounds, Drilling rigs, Offshore platforms, Accommodation badges, Work/standby vessels etc.
- Hydro testing and refurbishment of all type of cylinders.
- Rental, Service and Supply of Gas detection system.
- Shutdown and Offshore experienced H2S technicians.
- Repair and Maintenance of all Safety equipment.

OUR PROJECTS

❑ BREATHING AIR SYSTEM FOR SHELTER IN PLACE (SIP)

Client: Qatar Gas

Location: Waste Materials Management Facility, Raslaffan

Scope: Engineering, supply, installation & Commissioning.

Year: 2018-2019

❑ BREATHING AIR CASCADE SYSTEM TEMP REFUGE

Client: Qatar Shell GTL

Location: Offshore Platform Pear 1 & Pearl 2

Scope: Engineering, supply, installation & Commissioning.

Year: 2016-2017

❑ BREATHING AIR CASCADE SYSTEM

Client: Qatar Petroleum

Location: Offshore Platform PS-2 & PS-3

Scope: Engineering, supply, installation & Commissioning.

Year: 2010-2011

❑ NITROGEN CYLINDER QUAD

Client: Maersk Oil Qatar/NOC

Location: Offshore Platform

Scope: Engineering, supply, installation & Commissioning.

Year: 2010, 2018, 2019

❑ BREATHING AIR SYSTEM

Client: Halul Offshore Company (HOSC)

Location: H-49, H-80, H-81, H-82, H-90, H-100, H-101, H-45,
H-50, H-43, H-44, H-29, H-14

Scope: Engineering, supply, installation & Commissioning.

Year: 2008-2019

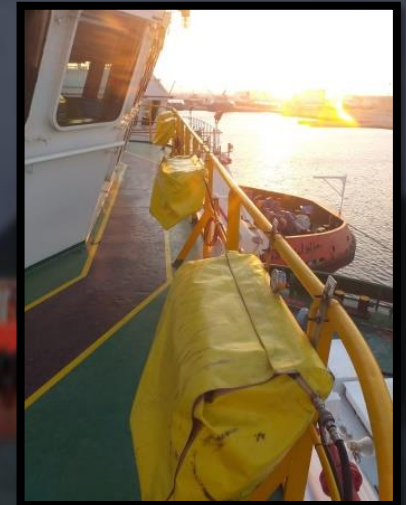

❑ BREATHING AIR SYSTEM

Client: TOPAZ Marine

Location: Topaz Rayan, DMS, Challenger, DJM-5, Team Muscat,
DMS Champion

Scope: Engineering, supply, installation & Commissioning.

Year: 2005-2015

☐ **BREATHING AIR CASCADE SYSTEM**

Client: Qatar Petroleum Development (Japan)

Location: Offshore Platform Delta Explorer

Scope: Engineering, supply, installation & Commissioning.

Year: 2006

☐ **BREATHING AIR TECHNICIAN**

Client: Schlumberger Job 003

Location: Onshore Rig Near Saudi Boarder

Scope: Engineering, supply, Technician.

Year: 2019
