

**MARBLE | GRANITE | LIMESTONE | ONYX | TRAVERTINE**

GLOBAL NATURAL STONE PROVIDER

[www.capotc.com](http://www.capotc.com)

# GLOBAL REACH

CAPO have made partnerships with supply chain and global stone industry to offer the best global reach. We're redefining the standards of client direct stone supply on projects of every dimension, requirement and location.

The background of the entire page is a photograph of large, rectangular stone blocks. The stone has a light beige or cream color with prominent, wavy, horizontal veins of a slightly darker shade. The blocks are stacked, with some showing rough, natural edges and others appearing more finished. The lighting is bright, suggesting an outdoor setting.

'We deliver the finest stone collection  
from around the globe for your project'

WHERE QUALITY, PROFESSIONALISM AND LUXURY MEETS

## Welcome to CAPO Natural Stone

CAPO has been active in the stone sector since 2010 offering exclusive ranges of marble, granite, onyx and stone products. Our company specializes in finding rare and precious materials and supplying quality products at the best prices for project work and large scale installations.

## About Our Company

40

*Team members*

12

*years in business*

100+

*happy customers*

We have our own experts in the field selecting product from quarries in the countries the materials originate from, where our affiliated operating companies manage production based on market demand.

## Our Mission

To provide global standard and competitive solutions to clients through a rigorous innovative approach. Total commitment on every project., exceeding our client's expectations in quality and service.

We maintain strong and growing relationships with regulatory authorities, consultants, contractors and suppliers. Project after project, our reputation is based on delivering the perfect mix of management expertise, ethical business practices and high level construction capability.

## Our Vision

To continue being efficient in the field of Marble & Natural stone working in an ethical and balanced manner to earn the privilege. Being a worldwide company and creating added value by performing our duties at its best.

CAPO has built its reputation around servicing the most exclusive and fashionable clientele. CAPO's clients demand finished spaces exhibiting top quality fit and finish to complement their world class products and services.

## Our Services

CAPO is a global natural stone provider committed to supply from source to destination. A unique process designed to meet vision-specific needs from stone sourcing and design, planning and site installation.

CAPO is also committed to comply with the requirements and to continually improve the effectiveness of the quality system.

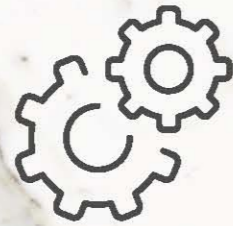

*The unsurpassed ability of CAPO to ensure a high end fit and finish while moving projects quickly and smoothly from design through construction and on to handover is one of the reasons why so many of CAPO's clients are repeated customers.*

## ABOUT MECHANICAL INSTALLATION

External Stone cladding with mechanical fixing system is the best and safest methods for the installation of all kinds of masonry. Unlike the normal way of wet cladding installation, the dry cladding keeps a high level of accuracy while installing the stones and it is adjustable easily to ensure clear appearance of the building and preserves the color of the stone by avoiding direct contact with the substrate.

Dry Stone Mechanical Cladding System components vary depending on several factors such as:

- Stone load.
- Cavity.
- Architectural design.
