ABOUT

Deema Engineering & Trading Co. W.L.L. is a distinguished entity in the realm of industrial services in Qatar. Established in 2006 as Deema Trading & Contracting and subsequently rebranded as Deema Engineering & Trading Co. W.L.L. in 2009, our journey has been characterized by unwavering dedication to excellence, reliability, and client satisfaction. Over the years, we have emerged as a trusted partner for industrial blasting, painting, fireproofing, and coating solutions, catering to the evolving needs of Qatar's industrial landscape. With over 15 years of collective experience, our management team is dedicated to upholding excellence through stringent quality control measures.

At Deema, we take pride in our ability to tackle projects of any size, with certified crews capable of working in diverse environments, including offshore locations. With operations in Qatar we are recognized for our rapid growth and commitment to innovation by continuously updating our practices with the latest technologies to ensure customer satisfaction. Safety is ingrained in our culture, evident in our track record of over 10 million incident-free man-hours.

VISION

To become the leading industrial coating service provider in Qatar and beyond by setting new standards, continuously innovating, and ensuring excellence in all aspects. Our focus also includes fostering sustainable growth and forming strategic partnerships.

MISSION

To transform Qatar's industrial sector through commitment and innovation, surpassing industry standards and client expectations with unparalleled quality and dedication in every project.

CORE VALUES

At Deema Engineering & Trading Co. W.L.L., our core values serve as the guiding principles that shape our culture, drive our actions, and define our identity:

Quality

We are unwavering in our commitment to delivering the highest standards of quality in every aspect of our work, ensuring superior outcomes and lasting value for our clients.

Safety

The safety and well-being of our workforce and clients are paramount. We prioritize safety in all our operations, adhering to stringent protocols and fostering a culture of safety awareness and accountability.

Professionalism

We uphold the highest standards of professionalism in all our interactions, from project planning to execution and beyond, demonstrating competence, reliability, and accountability at every step.

Innovation

We embrace innovation as a catalyst for growth and excellence, continuously seeking new technologies, methodologies, and solutions to enhance our services, optimize efficiency, and drive sustainable progress.

Integrity

We conduct ourselves with honesty, transparency, and integrity, honoring our commitments and earning the trust and respect of our clients, partners, and stakeholders.

OUR FACILITIES

Deema Engineering and Trading Co. W.L.L. houses dynamic facilities where skilled professionals deliver excellence in every project. Our 6,500 square meter blasting and coating yard in Mekaines is manned by experienced craftsmen who ensure precise and efficient coating application. In Doha, our machine shop produces precision-engineered valve accessories and components to meet client specifications.

Our painting facilities are staffed by highly trained technicians specializing in various coating systems, including ceramic coatings, for enhanced durability. Meanwhile, our 20,000-square-meter fabrication shop is led by experienced engineers and craftsmen, utilizing advanced techniques to produce high-quality components.

Throughout our facilities, a dedicated team of quality assurance professionals ensures adherence to rigorous industry standards. With a focus on human resources and ongoing training, our facilities at Deema Engineering and Trading Co. W.L.L. are vibrant hubs of collaboration and innovation, delivering exceptional outcomes for our clients.

OUR SERVICES

1. Industrial Painting and Coating

Deema is proud to offer cutting-edge coating solutions powered by a collaboration with industry leader industry leaders like Jotun Paints, Hempel and International Paint to meet the diverse needs of our clients. With a well-equipped Blasting & Painting facility covering 6,500 square meters on the outskirts of Doha, our paint booths can accommodate most component sizes providing excellent corrosion control, value, and safety.

Our Ceramic Coating System is a standout offering, effectively reducing surface temperature by up to 95% while providing insulation to steam systems, eliminating sweating, and protecting against corrosion and pH fluctuations. It adheres to any surface, meets OSHA standards, and is MSDS-certified as non-hazardous, ensuring safety and performance.

2. Fabrication

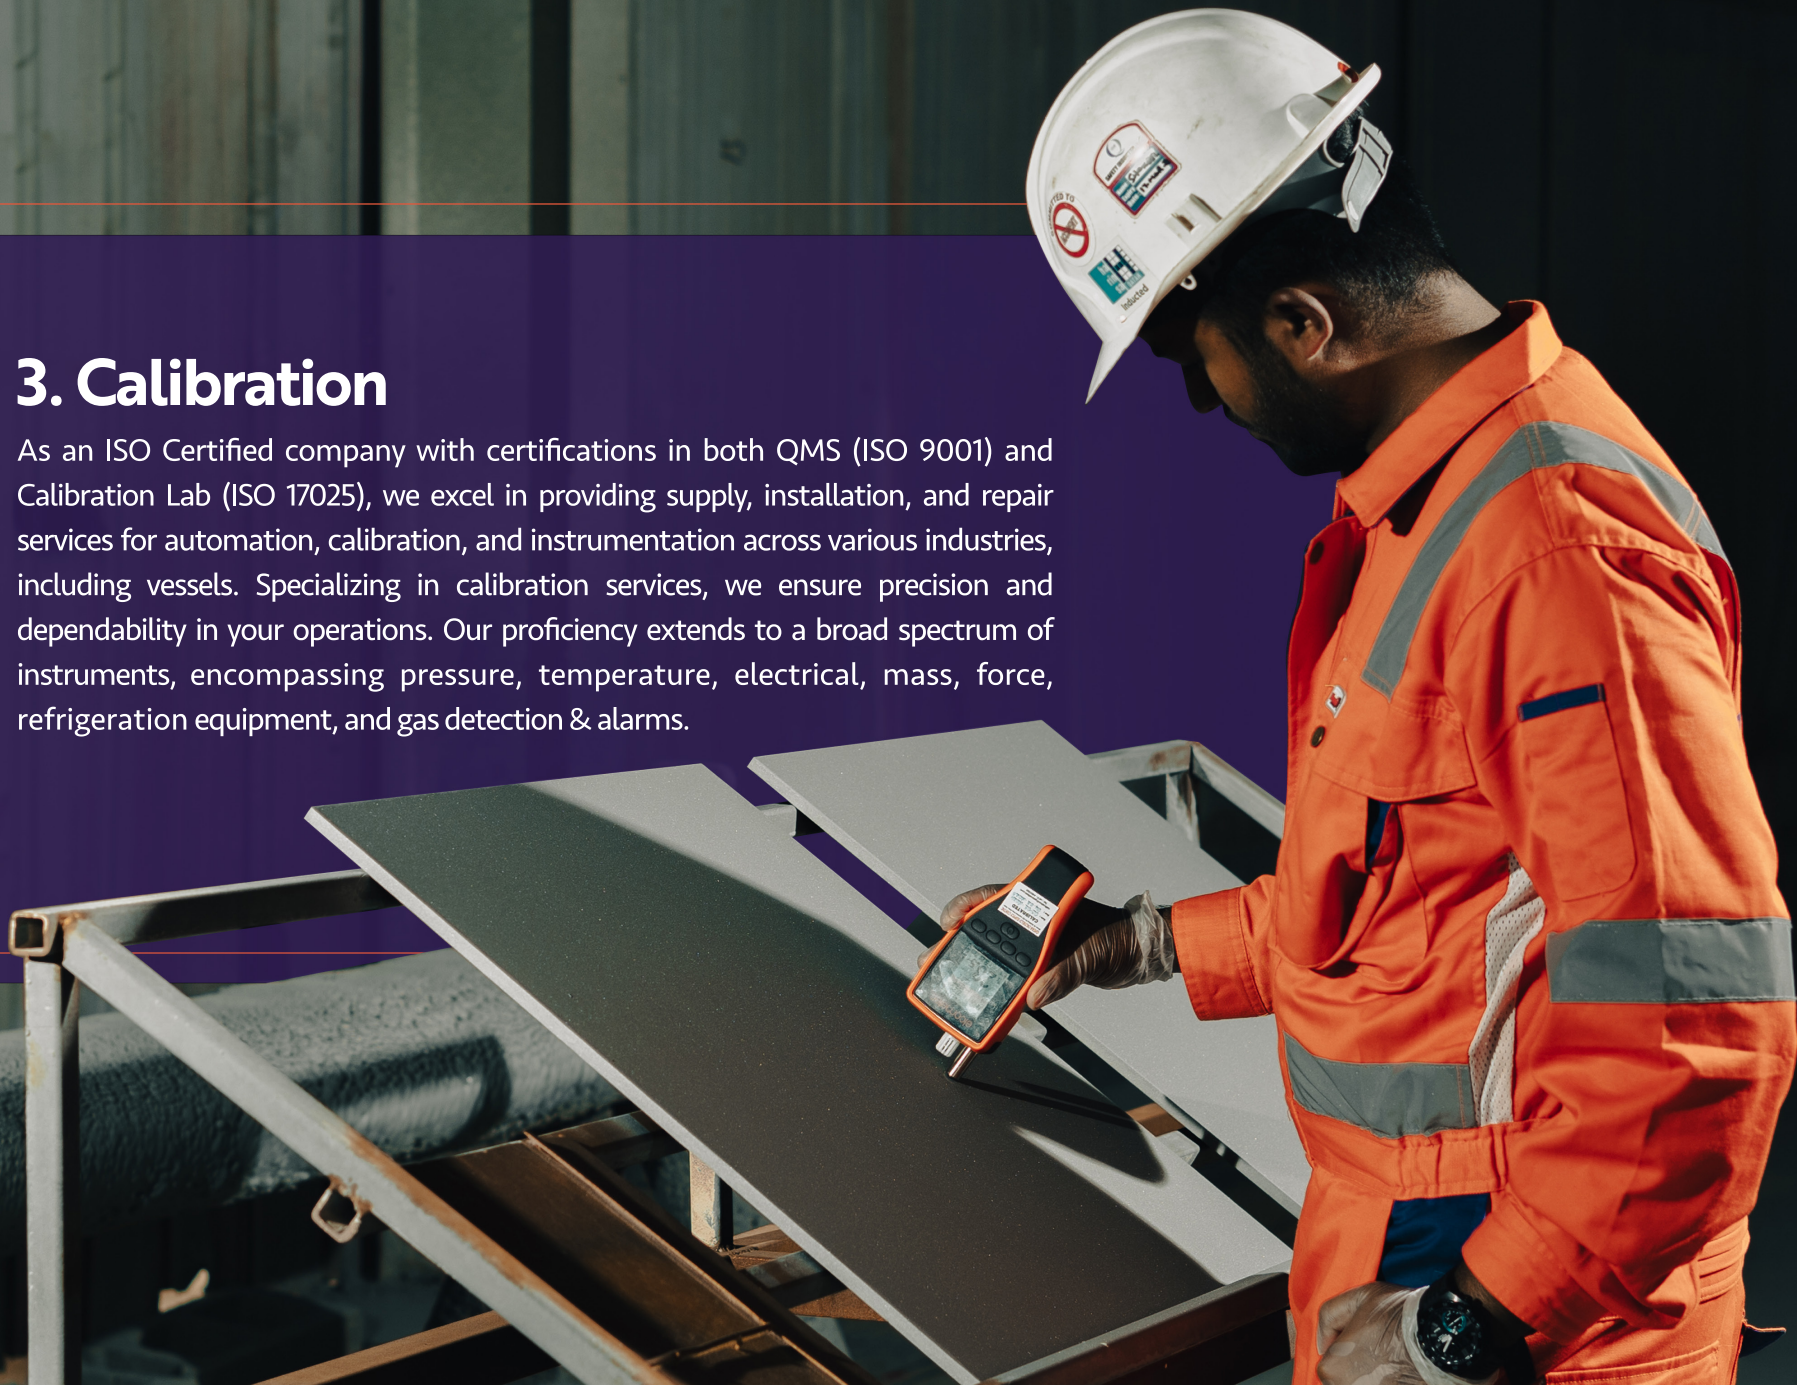

At Deema, our fabrication capabilities are tailored to meet the diverse needs of our clients with precision and expertise. From valve accessories to intricate structural components, our engineering and fabrication departments excel in transforming concepts into reality.

Our skilled welders, certified to ASME Section IX standards, execute fabrication processes with meticulous attention to detail, adhering strictly to ASME Section VIII, ANSI B31.1, or ANSI B31.3 requirements. To ensure the highest quality standards, our in-house heat treatment and non-destructive examination (NDE) departments meticulously inspect all fabrications, surpassing customer expectations with every product delivered.

Our fabrication shop, boasting a spacious 20,000 square meters, is equipped with the latest tools and technology to handle a wide range of projects, from piping spools to process equipment. Supported by segregated storage yards, central blasting and painting facilities, as well as an electrical and maintenance workshop, our fabrication capabilities are backed by a comprehensive infrastructure designed to deliver efficiency, quality, and reliability in every project.

3. Calibration

As an ISO Certified company with certifications in both QMS (ISO 9001) and Calibration Lab (ISO 17025), we excel in providing supply, installation, and repair services for automation, calibration, and instrumentation across various industries, including vessels. Specializing in calibration services, we ensure precision and dependability in your operations. Our proficiency extends to a broad spectrum of instruments, encompassing pressure, temperature, electrical, mass, force, refrigeration equipment, and gas detection & alarms.

4. Thermal Insulation

At Deema, we offer comprehensive thermal insulation solutions to optimize energy efficiency and protect against temperature fluctuations. Our experienced technicians specialize in applying advanced insulation materials and techniques to pipelines, vessels, tanks, and other industrial assets.

With our expertise in thermal insulation, we help our clients maintain optimal operating conditions and reduce energy consumption, ensuring their assets remain efficient and reliable.
