

EduTec Training Center

Company Profile

EduTec Training Center is proud to be a Qatari company that has international service quality standards

Since 2007

About EduTec

Brief Company Profile

Edu-Tec was established in 2007 to offer vocational training and award recognized qualifications. The company specializes in tailor made courses in English, Management and Skills for Life offered through a forum of workshops and seminars.

Edu-Tec's objective is to assist individuals to reach their full potential and become dynamic and confident professionals in their given field. This is achieved by identifying a personal development plan covering theoretical skills and practical experience in order to nurture a person's untapped potential. This combination style learning programme is in turn matched to the technical and professional skills needs of employers thus ensuring a company's economic success.

Edu-Tec believes that it is this flexible and pro-active approach to both employer and employee coupled with their commitment to quality at all stages of the training process which delivers optimum results to their clients in Qatar and worldwide.

<p>Management & Soft Skills Training</p>  <p>training that will make a real and measurable difference to your performance. it can be tailored to meet your organisation's specific needs.</p>	<p>English Language Training</p>  <p>a wide range of General English, Business English, ESP (English for Specific Purposes) and Exam Preparation courses for 2016</p>	<p>e-Learning and Distance Learning</p>  <p>"Learn what you need, when you need, where you need..." e-Learning, e-Tutoring, e-Coaching Live and Blended Learning.</p>

Description of Why You Should Choose Our Company/Center Versus Others:

Edu-Tec has a history of successfully delivering professional and practical English Language and Business courses to many of leading companies and organizations in Qatar. The organizations which we have successfully delivered our courses are very large organizations, comprised of businesses from both the private sector, as well as the government sector.

All of our training courses which we deliver are customized to meet the very specific needs of each business and organization in which we provide the training. We are detail oriented, and ensure that each student who attends our courses will receive the most practical training that they require to advance them personally, but also enhance their productivity in the work environment. The course material which we use to deliver the information is completely customized to meet the needs and expectations of that specific organization. Our goal for the employer and organization is that once their staff have completed the course, they will return to work with a much further expanded knowledge of the subjects, and therefore be much more productive in the workplace.

We ensure that all of our experienced and professional instructors are native speakers of English, and are well educated and experienced in delivering a highly successful course. Our instructors are always evaluated during, and after the completion of each course to ensure that the students feel satisfied with the material that they are learning. We believe very strongly in continuing education as well, and therefore our instructors are always updating their teaching skills with specific training courses, and continued education
