

GULF LIGHTS
ELECTRICAL ENGINEERING W.L.L.

For innovative solutions
and value added services

CHAIRMAN'S MESSAGE

It is a privilege to be a part of one of the world's fastest growing economy. We are witnessing phenomenal growth and development in the state of Qatar which is the reflection of the dynamic leadership of H.E. Sheikh Tamim bin Hamad Al Thani.

Gulf Lights has aligned its goal in line with Qatar Vision 2030 with its innovative lighting solutions and high / low voltage solutions for a variety of industrial applications.

The passion and commitment at work showcased by our team, who we believe are our most valuable asset has immensely contributed to the success of this organization.

Our journey which had started with a modest beginning, today has transformed into an organization with hundreds of staff rendering different products and services to the ever-growing Qatar market. We work as one motivated team and inspire our staff to take on challenges and convert every opportunity coming along the way.

Gulf Lights strongly believes in implementing best business practices without compromising on work ethics and guide lines set by the company.

At Gulf lights, we focus our efforts towards realizing the dream of Qatar Vision 2030, through excellence and quality service to our customers.

Abdulla Ali Al Sulaiti

MANAGING DIRECTOR'S MESSAGE

The current world of globalization continuously challenges us all, Gulf lights fully understand that our potential clients' requirement is directly proportional to the success of our organization. Our past experiences and track records clearly show that we were focused towards market's requirements and needs.

On behalf of the board, I thank our esteemed clients, world-class partners for the success of Gulf Lights Electrical Engineering. I would also like to specifically mention about our highly trained engineers and professionals who have always given their best, which has put the company on the path of tremendous growth.

We always strive to offer up-to-date products and services to our clients backed up by professional service. We assure our customers that we will continue to give top most priority to their needs and requirements thereby ensuring customer satisfaction to the core. In addition, Gulf Lights will constantly endeavor to provide environmentally friendly products to its clients thereby complimenting Qatari governments efforts towards reducing carbon foot print and greenhouse gas emission.

We are committed to the growth and development of the company which aligns with Qatar's vision of 2030 and at the same time providing and maintaining quality service to our clients.

Gulf Lights management is committed to maintaining core values which led to company's success in the past years. I hope the same commitment would continue from our employees and business partners. Our core values like Integrity, honesty, and customer service -have defined Gulf Lights since the founding of the company & that these ideals must be followed to the core to maintain our success story in the years to come.

Yours sincerely

Sanaullah Abdul Rehman

ABOUT US

Gulf Lights Electrical Engineering W.L.L. started out in the year 1990 as a culmination of ideas between the enterprising partners. Commenced operations as a MEP contractor and subsequently expanded operations onto rendering services across entire spectrum of Mechanical and Electrical services and products in the form of designing, supplying, installing, testing & commissioning and honoring warranties/ guarantees through our well-equipped and proficient maintenance team.

From its humble beginnings the company soon grew from strength to strength giving utmost priority to hard work and commitment to quality and reliability. These ethics are valued and upheld by each and every employee of ours and is the key to our success & steady growth for almost 30 years now.

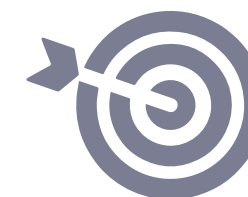

Gulf Lights Electrical Engineering W.L.L commits itself to quality and excellence in terms of its work, no matter how small or big is the project. Our work ethics and performance are to strive towards complete customer satisfaction. At Gulf Lights Electrical Engineering, the work force is constantly engaged in training programs to ensure they have the right know-how and equipment to ensure a job well done! We enforce rigorous safety standards and keep on client's requirements as topmost priority.

We are fully committed to Qatar in its growth and aim to retain our excellence in quality of our products and services. We strongly believe in our role towards contributing a world class infrastructure for Qatar.

VISION

To be a single point solution provider to the esteemed clientele across Qatar through innovative ideas, state of the art products & a professional trained workforce.

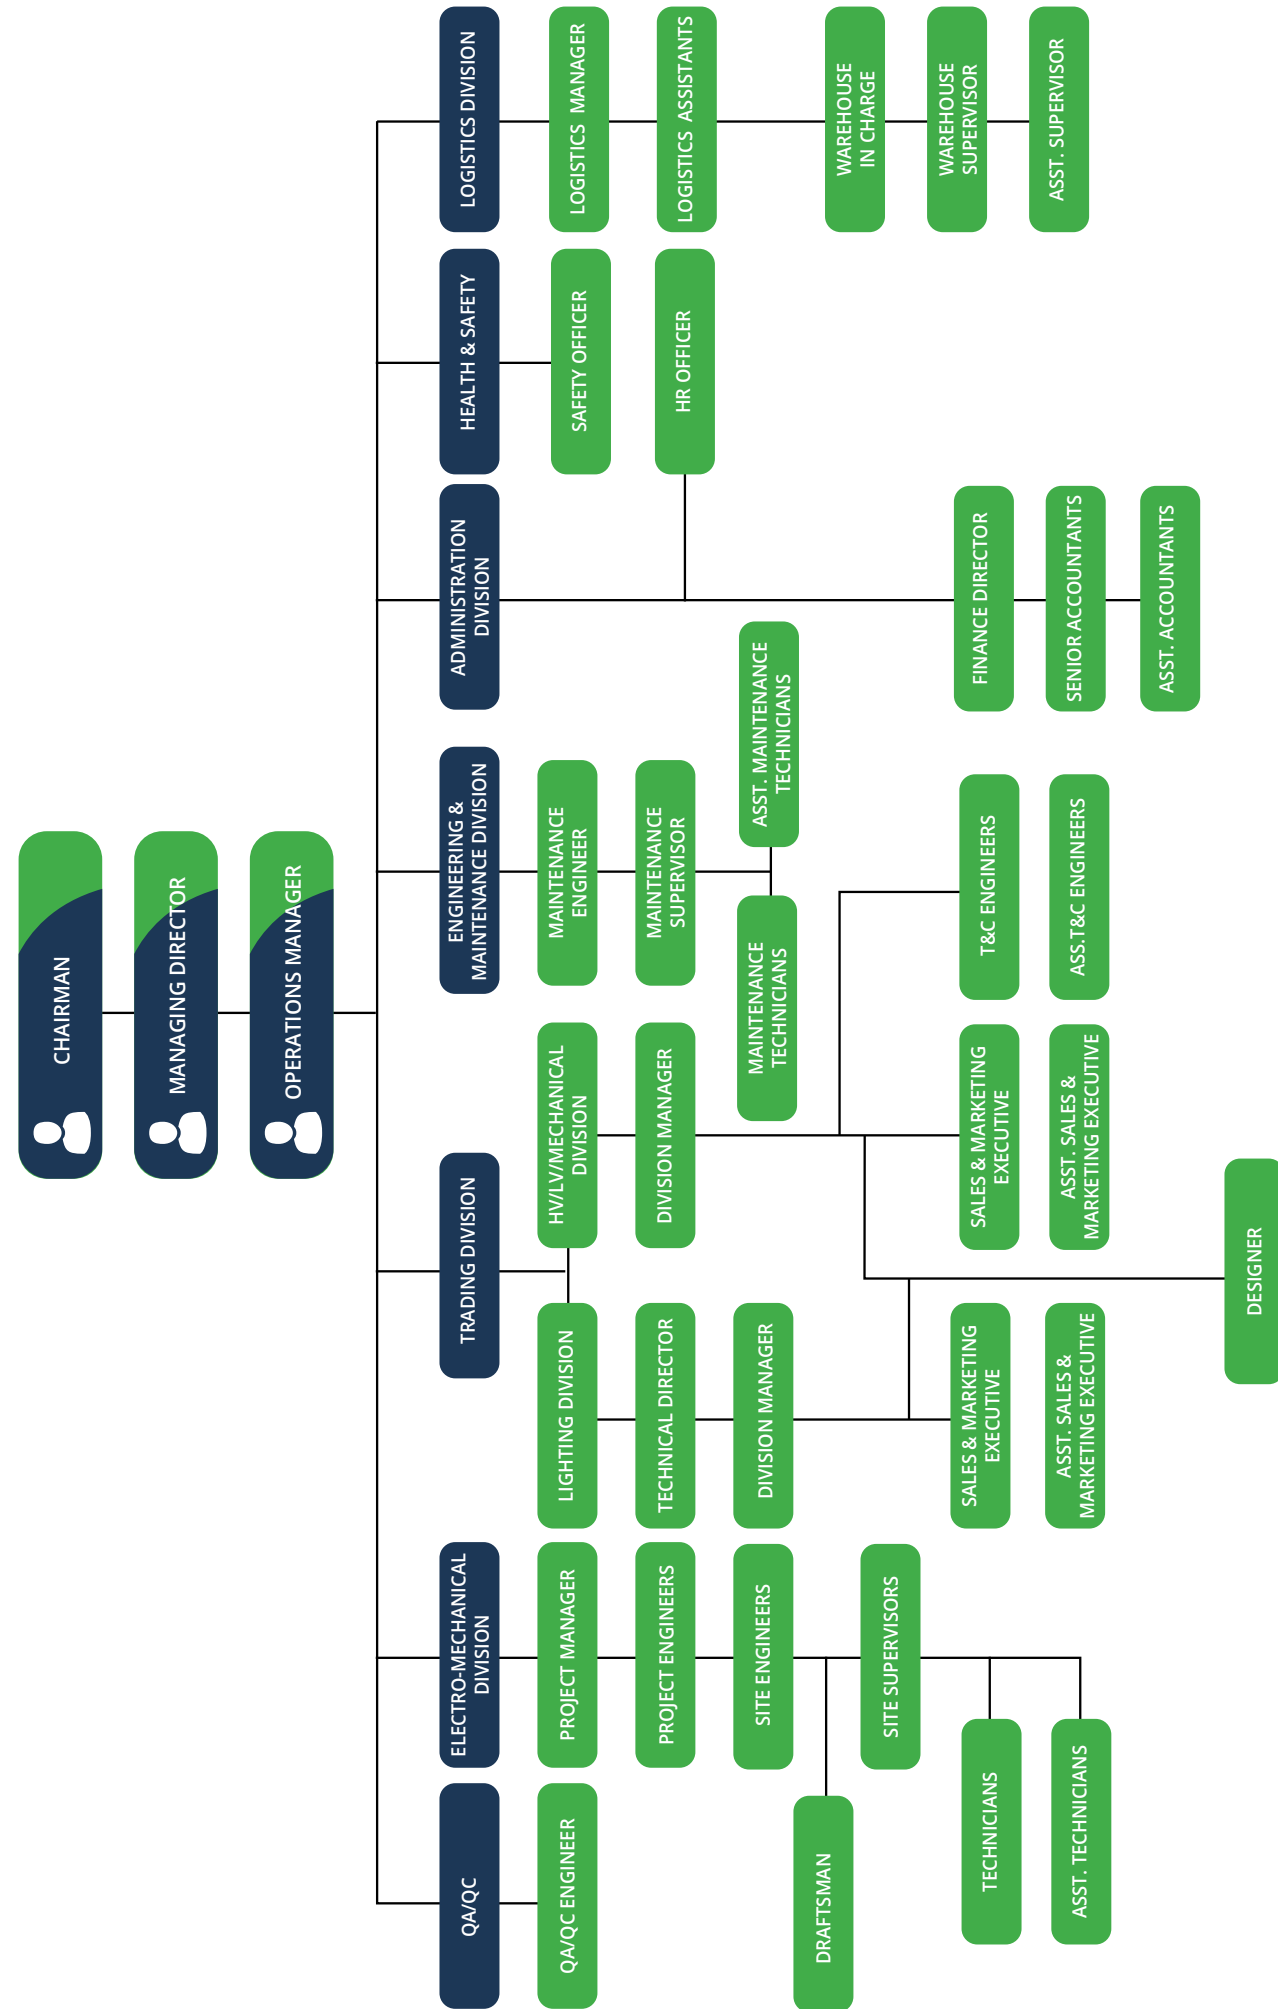

MISSION

Perceiving customer needs at utmost level and offering them advanced and appropriate technological solutions, competitive pricing, timely execution. Ensuring attentive, effective and proactive after sales service. Continually building our skills and knowledge to meet the growing and diverse needs of customers. Sustaining our reputation as a reliable, customer-oriented, dynamic player in the market

Achieving profitable growth, operational and organizational excellence without compromising from our business values and ethics.

ORGANIZATION CHART

OUR BRANDS

SPECIALIZED SOLUTIONS FOR:

Shopping Malls

Effective lighting creates an ambience and appeal for customers and highlights the products to the likes of the customer. Lighting serves as a medium for expressing the contents and values of a brand so as to promote brand recognition. It can also be used to accentuate the atmosphere of seasonal themes as per the taste of the customer and there by helps in brand recognition.

Our designers work meticulously with Interior designers, architects, designers to build concepts and themes into a coherent sequence of events with light as an intangible medium that allows space to be continuously reinterpreted. Gulf Lights offers an extensive range of lighting tools for varied & customized requirement of malls, retail outlets and global chains. The knowledge and the skill of the designers combined with lighting tools produce solutions satisfying the highest aesthetic and functional requirements, yet with low operating costs.

Healthcare Lighting

Gulf lights proven commitment to provide specialized lighting solutions for Healthcare environments including patient wards, hospital corridors, consulting rooms, operation theaters, scanning rooms, reception areas for better working conditions is quite well known. This enhances patient comfort and well-being at any given point of time.

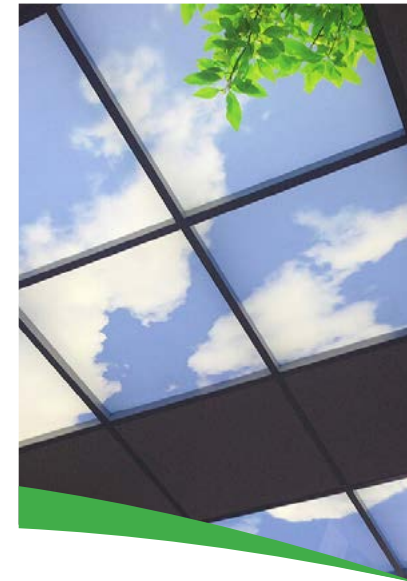

Outdoor Landscapes

Gulf Lights team possesses expertise in the field of landscape lighting design and installation with various options and designs to suit customer needs. Our competent designers understand the scope of work to finally give a custom design apt to accentuate the landscape and hardscape of projects.

Educational Institutions

Effective classroom lighting scheme is to make use of natural light that is available with addition of artificial light, thereby aiding to the health, concentration and making the stay of pupils within the premises of educational institutions an appealing part of their daily schedule.

Sky Panels

Sky panels are used in operation theaters, hotels, scanning rooms, work stations etc. to facilitate better working conditions, enhance moods, productivity and results.

With an increasing number of clients having recognized the potential of light and architecture, the scenario has changed completely from what it used to be.

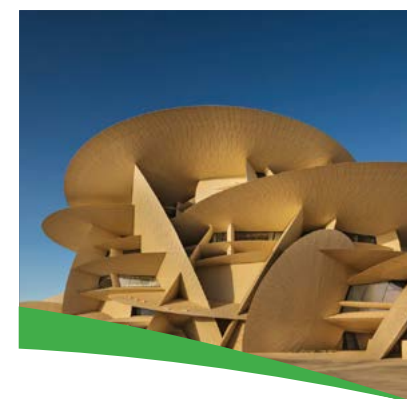

A lighting concept is complete only when the principles of qualitative lighting design like ambient luminescence, focal glow, play of brilliants are used in a apt manner. There are always themes and concepts that can be communicated to the guests and customers using spatial and lighting design. To ensure a successful lighting concept for gastronomic settings, it is vital to understand and translate the ideas accordingly.

Stadiums, Tunnels, Highways

Gulf Lights holistic approach in designing sports facilities helps to understand the specific needs of the project. clients' needs by way of defining the right level of lighting, uniformity, comfort and color temperature from specific points and locations for most efficient and appropriate lighting system for recreational sports.

Gulf lights gives top priority to safety while providing quality and environment friendly lighting solutions for roads and tunnels and similar infrastructure projects that aid traffic & individual mobility needs. The client enjoys a sustainable return of investment.

Museums & Arts Centers

Museum and art centers are places to discover, explore and learn about the present and future creativity. Lighting plays a significant role in developing interaction between humans and artifacts in one defined space. Gulf Lights with its unique collection of lighting brands and products works with designers in the field of museum and artefacts lighting to help achieve the right mix of lighting, the angles, the colours in highlighting the displays and in enhancing the feel of these places along with the desired protection against any harmful effects of UV rays on the artefacts.

OUR SERVICES
