Mission to achieve excellency in project execution, quality, reliability, safety and operational efficiency. Encourage ideas, talent and value system and become the employer of choice. Earn the trust and confidence of all clients, exceeding their expectations. Uphold the guiding principles of trust, integrity and transparency in all aspects

**HAMAD FAHAD H H AL MOHANNADI**  
MANAGING DIRECTOR

# PRODUCT SUMMARY

## PORTABLE CHEMICAL TOILETS

Our portable self-contained toilet units are an ideal solution for construction sites, motorway maintenance, open days and exhibitions as they can be used where no mains facilities are available. All of our toilet units are totally self-contained and do not require water, drainage or power connections as they are delivered by our dedicated specialist delivery vehicles ready for immediate use.

The smooth interior and exterior walls of our units make for easy cleaning of dirt and grime. Unique, vandal-proof, heavy duty springs are recessed in the top and bottom of door to give it extra wind resistance and assure a tight fit.

Exclusive blow molding technology produces smooth walls inside and out. Cross ribbing between panels provides unbeatable strength and stability. Easily replaceable parts and reduced wind resistance means cost reductions in maintenance, transportation and service.

## PORTABLE TOILETS CLEANING SERVICES

All units are cleaned and re-stocked with consumables on a weekly/daily basis. 24/7 cleaning service includes sewage removal, pressure wash, supply of chemical and consumable.

# PORTA CABINS & ABLUTION UNITS

## PORTA CABINS

Various Layouts are available from one unit to multi linked units as per example layouts below.

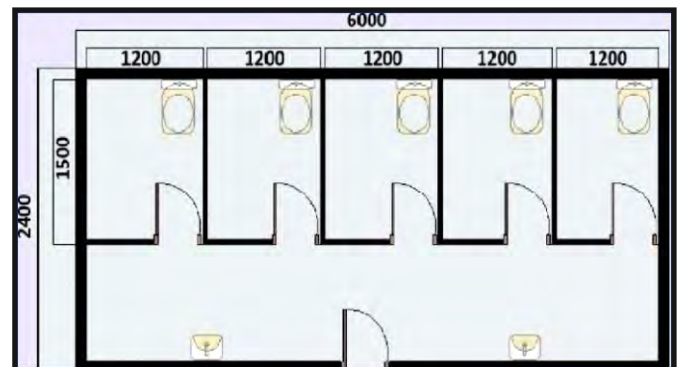

As all panels are removable, full or partial walls can be removed to create open plan office space or any configuration that meets your needs. if you find that you need additional space we can simply add further units on.

### Standard Single Unit Dimension

Length:	6000 mm
Width:	2400 mm
Internal Height:	2350 mm

## ABLUTION UNITS

These ablution units are built in with fire rated cement board or sandwich panels. All units configuration of 5 European WC, 2 Urinals and 2 Wash basins. Along with 2mtr x 3mtr waste tank & 2mtr x 2mtr water tank below. Alternatively we can design relevant as per other measurements as well. All units come fitted with waste tank, water tank, water closet, wash basin, individual doors, exhaust and ladder as per above drawing.

### Standard Single Unit Dimension

length:	6000 mm
Width:	2400 mm
Internal Height:	2350 mm

● Alternative layouts available as per requirement

# ACCOMMODATION & STORAGE

## MODULAR CABINS

Containex buildings allow even greater flexibility as they can be adapted exactly to your needs. Units can be added together creating open plan space and extra units added at anytime. Panels, windows and doors can be configured in a way to suit your needs.

Office cabins can be supplied flat packed at favorable rates to any destination. Units can be supplied to site flat packed to reduce transport costs and erected on site by our staff.

These units match ISO dimensions and have many advantages. They consist of a robust galvanised frame construction and interchangeable wall panels, this enables you to have the flexibility of where to position windows and doors etc.

## PORT CONTAINERS

Anti-vandal steel containers provide a secure storage solution with easy access for both materials and plant. All units are fitted with anti-jemmy hinge protectors and come complete with a high-security padlock.

### 20'x 8' Container

Length	6000mm
Width	2440mm
Height	2440mm

### 40'x 8' Container

Length :	12000mm
Width :	2440mm
Height :	2440mm

# BARRIERS & FENCING

## CROWD CONTROL BARRIERS

Crowd Control Barriers are a lightweight and durable fencing system, ideal for pedestrian control. Barriers can be interlocked forming a continuous chain and have been designed for speed of erection.

Length	2100mm per section
Height	1100mm
Weight	15 kg per section

## TEMPORARY SECURITY FENCING

Heavy Duty Security Fence Panels are an ideal temporary security solution. They can be rapidly assembled on site to protect plant and equipment and are a cost effective deterrent to vandalism. Heavy duty mesh temporary fence panels come complete with rubber foot and clip for joining each panel together and are versatile to create any varying angles necessary.

Length	3500mm per section
Height	2000mm
Weight	30 kg per section

# AIR CONDITIONING/ ELECTRICAL/ PLUMBING

# AIR CONDITION SUPPLY, SERVICE & MAINTENANCE

## ROOM AIR CONDITIONERS

Supply and Installation of Room Air Conditioners like Split AC, Window AC, Cassette AC, Floor Standing AC, etc ..

## SERVICE AND MAINTENANCE

Service and Maintenance works for All types of Air Conditioning systems includes Split A/C, Window A/C, Ductable Split Units, Freezers, Cold Room, AHU, etc ...

Our service department provides service 24 hours a day and 7 days a week. Our Certified and trained service technicians have extensive knowledge with all makes and models and have the skills to service on any type of residential, commercial or industrial systems ranging from home type systems to boilers, chillers, large commercial VAV systems and DOC controls. Our Service Department's goal is to provide 100% customer satisfaction. We can and do provide service that is second to none.

# DUCTING & CHILLER WORK

## MS/GI/PI DUCT - SUPPLY AND INSTALLATION

We have engineers and skilled Duct fabricators for MS, GI and Pre Insulation duct supply and Installation work. We offer the Duct installation for various type of units like FCU, Package AC, Air Handling Unit, Exhaust unit, etc ..

Efficient and well-designed duct systems distribute air properly throughout your areas without any leakage to keep all rooms at a comfortable temperature.

The system provides balanced supply and return flow to maintain a neutral pressure within the space.

## CHILLER / PACKAGED UNITS

Water-cooled chillers are typically intended for indoor installation and operation, are cooled by a separate condenser water loop and connected to outdoor cooling towers to expel heat to the atmosphere. Air-cooled and evaporative cooled chillers are intended for outdoor installation and operation. Air-cooled machines are directly cooled by ambient air being mechanically circulated directly through the machine's condenser coil to expel heat to the atmosphere.

Chilled water temperatures can range from 35 to 45° F (2 to 7°C), depending upon application requirements. Installation will be done with safety procedure We completed many projects in both air-cooled and water-cooled chillers in various places in Qatar.

## SIGNAGE AND PROMOTIONAL PRODUCTS

We provide wide range of art and promotional services such as indoor and outdoor signage, graphic design, offset and digital printing handled by skilled designers, manufacture specialists, installers.

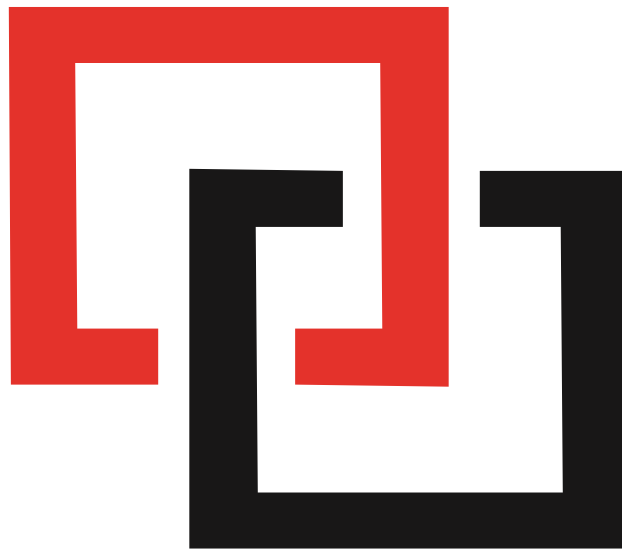

This includes Signboards – Engraving - Architectural, Directional, Traffic and Safety Signs– Billboards – Construction site boards – Building directory sign boards – Banners – Kiosk – Window and Building Display, etc.,

Also Includes Promotional Items like T-shirts, Caps, Ceramic Mugs, Bags, USB, CD, Pens, etc.,
