OUR STORY

IMWS is a large scale professional steel structure company integrating the trading, desining, production and installation.

IMWS provides complete solutions including consulting, design, fabrication and erection of high-quality pre-engineered steel buildings, prefabricated houses and steel structure products.

IMWS have many producing lines including coil straightening, coil slitting, bending, roll forming for C and Z purlins, rolling shutter slats and guide rails. today IMWS continues to expand its horizon to include welding and cutting with the latest CNC and CNC II technologies, production of trapezoidal and sinusoidal roofing sheets, galvanized and pre-painted, corrugated products and accessorise for rolling shulters our company offers variety of products which can meet your multifarious demands. we adhere to the mangement principles of “quality first, customer first and credit-based” since the establishment of the company and always do our best to satisfy potential needs of our customers. our company is sincerely willing to cooperate with enterprises from all over the world in order to realize a win-win situation since the trend of economic globalization has developed with an irresistible force.

Experience

Trusted

Expertise

Low Cost

PRE ENGINEERED BUILDING

01 / Structural Design

With the help of modern 3D software, we are able to design cost effective structures and create accurate models to generate fabrication drawings from

02 / Building Detailing (Free)

We provide our clients in the review process, giving them a glimpse of the structure to come. Can save you steel to the greatest extent and achieve good economic benefits.

03 / Steel Fabrication

We specialize in heavy structural steel fabrication, We only use high quality raw materials follow strict fabrication methodology and quality control procedures.

04 / Installation

Combined with proper planning and careful evaluation of site conditions, installs are done with speed and safety. And we provide the installation guide for clients

PRE ENGINEERED BUILDING

ARCHITECTURAL FACADE

CUSTOM ARCHITECTURAL METAL CLADDING SOLUTIONS

When you involve our designers and engineers early in the design phase, our team can develop custom metal cladding to fulfill your project's unique needs and specifications. We offer a multitude of custom solutions, including:

- A variety of metals, colors and finishes
- Practically unlimited choice of hole patterns, shapes and sizes
- Perforated Imaging
- Custom painting on panels metal façade panels
- Corrugated cladding
- Corten panels
- Laser and water jetting for one-of-a-kind designs and shapes

MODULAR PORTA CABINS

Our prefabricated modules are ideal for several uses such as: portable offices, toilets, changing rooms, temporary houses, laboratories and many more.

Pre-Assembled Modular Cabins

KNOCKED MODULAR CABINS

FLAT PACK MODULAR CABINS

MODULAR PORTA CABINS

Camps

IMWS Porta Cabins can provide accommodation facilities, ablutions, site offices, mobile storage units, mobile refrigeration units, kitchens fitted with high-quality catering equipment, dining and canteen halls, laundry units with heavy-duty washing and drying units, water and sewage treatment plants and tank containers for bulk liquid storage of hazardous and non-hazardous products.

TELECOM SHELTERS AND TOWERS

MODIFIED CONTAINERS

Shipping containers are extremely strong, durable and versatile, providing an ideal base to be converted into an endless array of practical solutions. We have years of experience in helping customers transform their ideas for container workshops, pop-up shops, cafes or restaurants, outdoor rooms, and more, into reality with in-house engineers and draftsman to assist in the design and a production team to ensure quality workmanship in the final product

20' CONTAINERS

20' STORAGE CONTAINER

	External Dimensions	Internal Dimensions
LENGTH:	6058mm	5900mm
WIDTH:	2438mm	2352mm
HEIGHT:	2591mm	2393mm

40' CONTAINERS

40' STORAGE CONTAINER

	External Dimensions	Internal Dimensions
LENGTH:	12200mm	12035mm
WIDTH:	2438mm	2352mm
HEIGHT:	2591mm	2393mm

10' CONTAINER

10' STORAGE CONTAINER

	External Dimensions	Internal Dimensions
LENGTH:	3029mm	2950mm
WIDTH:	2438mm	2352mm
HEIGHT:	2591mm	2393mm

OVERHEAD AND GANTRY CRANES

SILOS AND TANKS

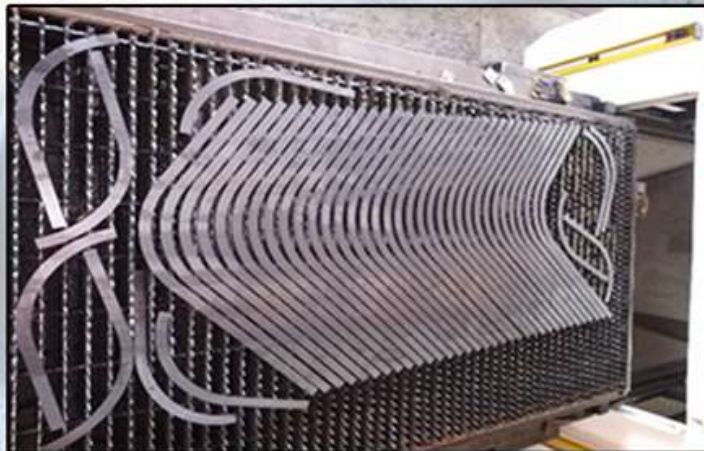

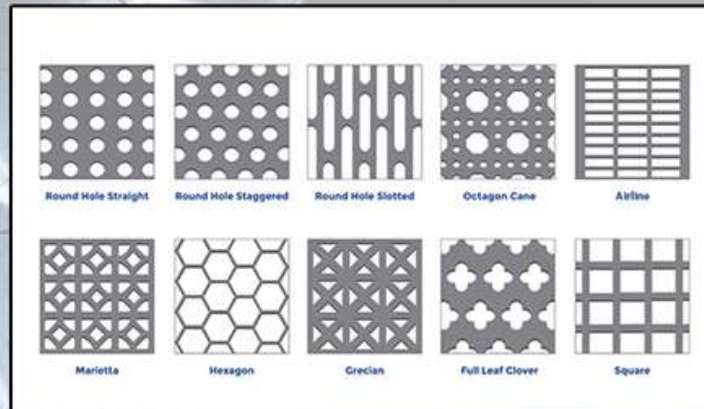

- In compliance with UL -142, NFPA 30, 30A, 31.
- Fabricated, inspected and tested against the leaked tightness before the shipment
- High quality fitting and superior material of construction.
- Entire range provided with normal and emergency vents openings, sturdy lifting lugs, legs, saddle support and various nozzle openings on the tank
- Body of carbon steel or Stainless Steel
- Carbon steel tanks with Painted surface finish
- Stainless steel with mill finish as standard.
- High grade of welding process to ensure the reliability of each tank.
- Optional accessories: Valves, Level Gauge, Fittings and Pipe work

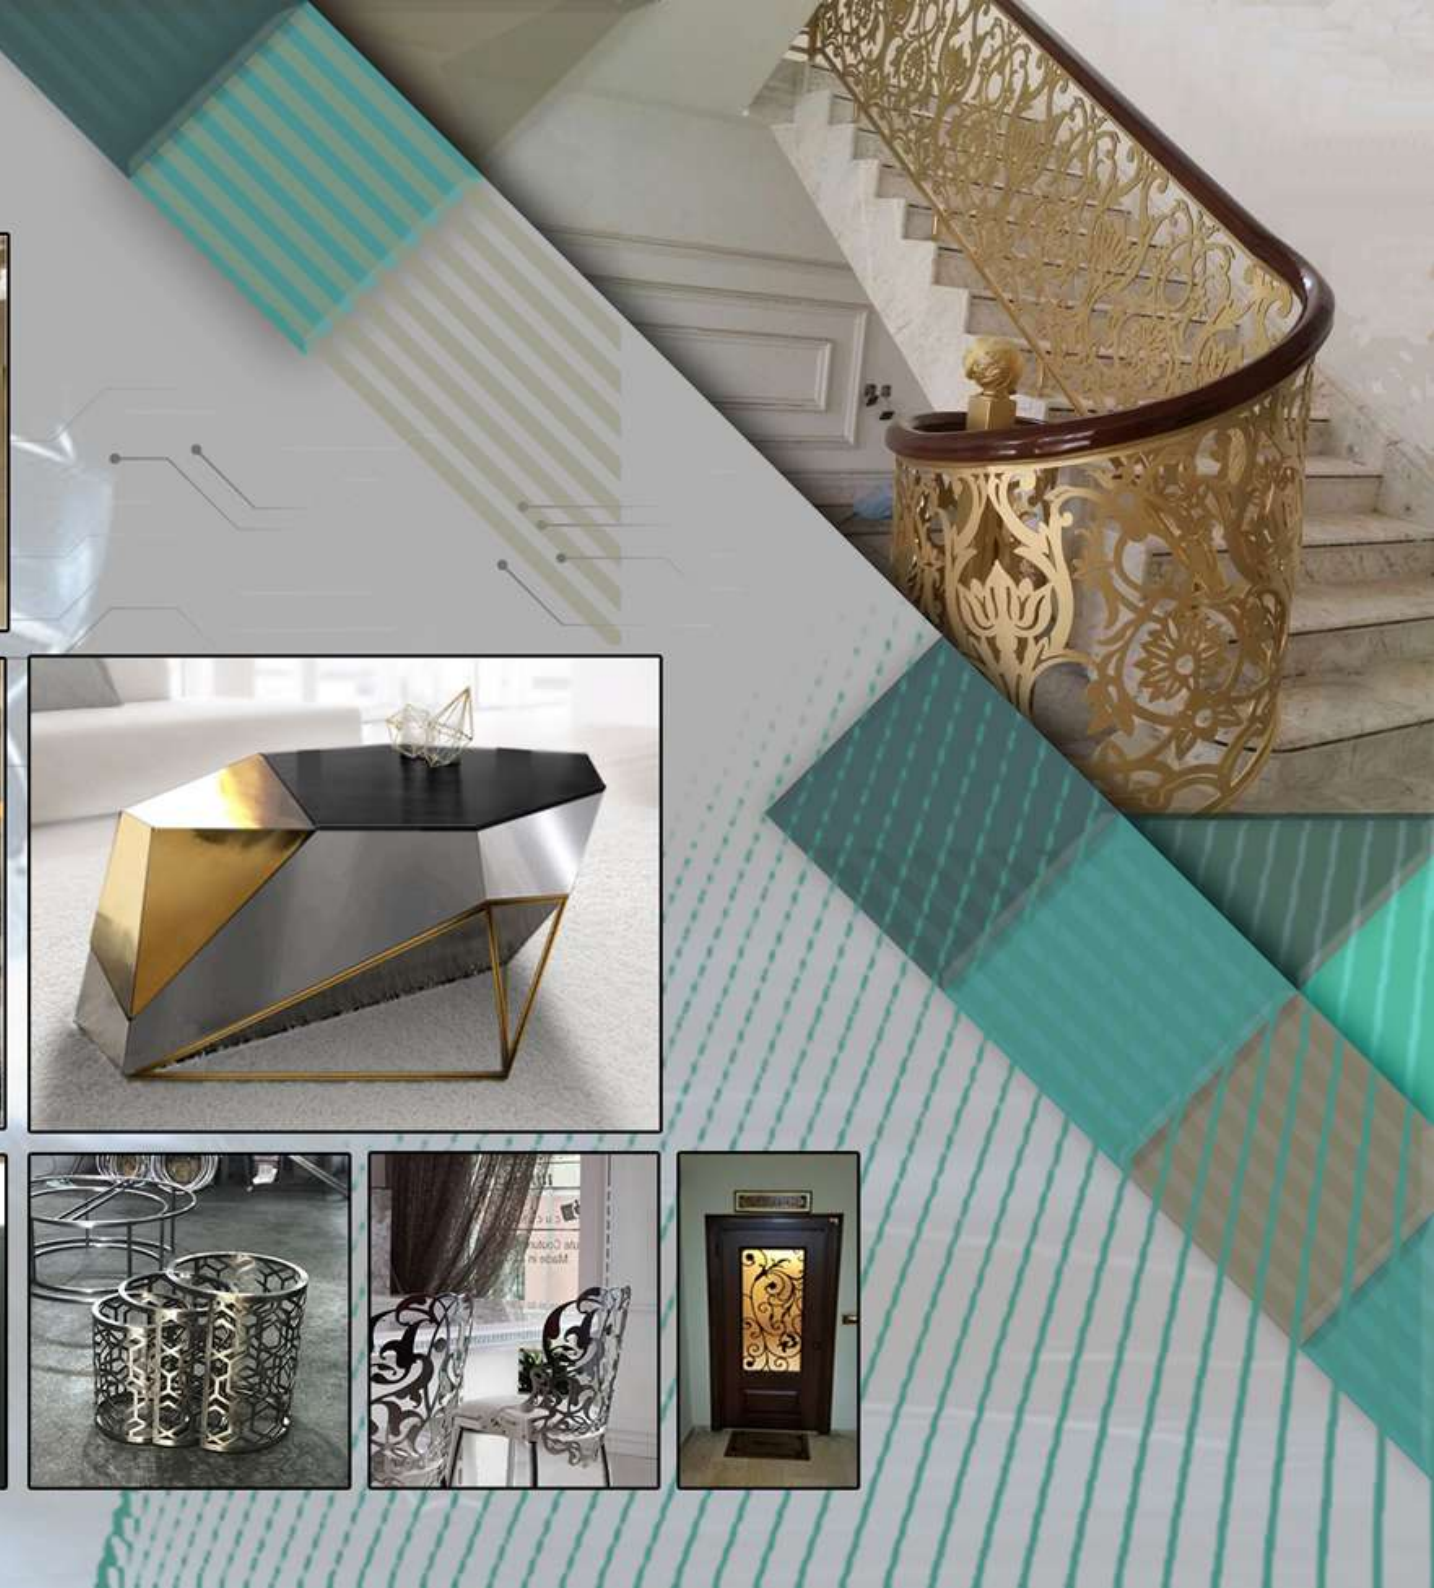

SHEET METAL PROCESSING

IMWS Sheet Metal is one of the most diversified metal fabrication companies in QATAR . We are a full service quality-oriented manufacturing company serving over 1000 customers with a wide range of applications, from precision sheet metal to heavy plate

- CNC Laser cutting
- CNC Water Jet Cutting
- CNC Sheet Bending
- Tube Bending Machine
- Roll Bending
- NC Shearing
