## KSP Global

KSP Global is your gateway for GCC, Arab World & Middle East Air conditioning & Refrigeration Market for maximum profits, and maximum return on effort, minimum business risk, and minimum business expense.

With depots in strategic locations of Jordan and UAE, KSP Global seeks to reduce the operation expenses of manufacturers & suppliers dealing in GCC, Arab world & Middle East.

With KSP strong financial capabilities, will reduce the financial risk for manufacturers and suppliers. Our targeted customers of wholesalers and distributors will be able to secure fast delivery of smaller shipments based on actual demand reducing over all inventory cost and cost of finance of their operation and assuring their respective customers continuous supply and prompt delivery.

## KSP Kuwait

KSP is a leading Master wholesaler and distributor for Air Conditioning & Refrigeration equipment, components, spare parts, tools, instruments, mechanical and electrical supplies.

## BBME Trading Company

This company is also a leading Distributor in Kuwait for wide range of industrial parts which include bearings, belts, gaskets, gland packing, mechanical transmission products, electric motors, electric winding suppliers, electric control systems as well as many types of industrial cleaning equipments and tools.

BBME Trading Company main location including offices, display area, counter sales showroom and warehouse is located in the heart of Shuwaikh Industrial area where we serve petrochemical industries, power stations, processing plants, manufacturing, workshops and oil field service companies. A wide range of bearings, belts and motors are also sold from our KSP/ BBME sales outlets and through our van Sales.

## KSP Qatar

KSP operates in Qatar since 2011 with total of 3 showrooms in Industria I Area, Doha, and Wakrah. KSP Qatar serve large number of customers from all sectors in Qatar

## KSP Bahrain

KSP operates in Bahrain since 1995 with total of 2 showrooms. KSP Bahrain is involved Large number of projects and wide product range.

KSP is an authorized distributor for the world leading manufacturer for compressors, controls, and condensing units. Emerson-Copeland are world leading in the HVAC and Refrigeration world

Danfoss Maneurop compressor range goes from small direct current hermetic compressors for mobile applications up to large scroll compressors for commercial air conditioning or industrial applications. The range covers all common HFC, HCFC and CFC refrigerants.

Tecumseh Products Company is an American manufacturer of hermetic compressors for air conditioning and refrigeration products. Tecumseh Products Company has subsidiaries that sell externally and internally to Tecumseh.

Nacobre's refrigeration coils and ACR Tube are dehydrated, cleaned and capped (degreased) to ensure tube reaches customer in pure, defect-free state. ACR tube is also suitable for medical gas systems according to ASTM B280, B 819

Arkema is the world leader in manufacturing HFC/HCFC refrigerants. It continues to expand its Forane line of refrigerants to meet the customer needs. Forane refrigerants are used wherever cooling or freezing applications are required, including appliances, automotive, construction, industrial refrigeration and supermarkets.

Equipped with new generation manufacturing and stringent quality control backed by adequate storage facilities, GFL's Chlorofluorocarbon range of Refrigerants are marketed under the "REFRON" brand. They are the largest manufacturers of HCFC 22 in India and preferred supplier of leading OEMs & Service partners globally.

Fasco has delivered the world's most complete line of custom fractional horsepower motors, blowers and gear motors for almost 100 years. Our motors power thousands of products for a diverse line of markets. Plus our expanding global presence, superior customer service and experienced staff can provide you with highest quality products at a competitive price.

Genteq is subsidiary of Regal-Beloit Corporation, one of the largest manufacturers of electric motors in the world. Genteq is the rebranding of Regal's GE ECM, GE Capacitor and GE Commercial Motors divisions, which occurred in 2009. Genteq is the developer of BLAC motor Technology and the DEC star blower.

Hartland Controls offers the industries we serve with over 30 years of experience in the design and production of high quality electromechanical products. All our products are UL recognized CSA approved, Semko and CE approved. Our DP contractors meet ARI

For the highest quality HVAC/R and automotive A/C service tools, there is only one clear choice. yellow jacket Discerning professionals know the right tools for all their jobs.

Fenner India is a pioneer and has been a market leader both in terms of new product development and market reach. Fenner India has regularly introduced state-of-the-art latest product range in Belts and transmission accessories both for domestic and international markets.

Full Gauge Controls develops and produces digital Instruments for control and indication of temperature, humidity, time, pressure and voltage. It's consolidated as a synonymous of excellence in technology for systems of refrigeration, heating, air conditioning and solar heating.

Dixell technology is leading the way in electronic regulation and control in the fields of refrigeration, air conditioning and heating and heating, and retail. Dixell parametric controllers, fan speed controllers and inverters ,compressor controls ,EEV drivers, sensors monitoring systems are trusted around the world.

## NSK-RHP

NSK RHP Bearings, Europe is part of the international NSK group, one of the world's leading manufacturers of rolling bearings, automotive components and mechatronic products.

Togami magnetic starters,contactors & relays have been regularly used throughout industries for the excellence and reliability for over a half century.It has succeeded such a time honored tradition and assures maximum satisfaction to customers in the world.

A.O.Smith offers a range of sustainable storage water heaters & water treatment products .We are a manufacturer and supplier of water heaters visit our website!Types:residential,food Service, Industrial,commercial.

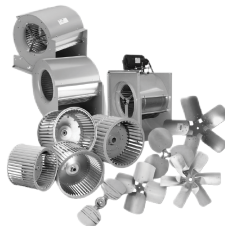

Since 1966 ,CMP Corporation has been providing the highest quality compressor replacement parts in the world at the lowest possible cost. As a result, CMP has become the worlds largest and fastest growing independent manufacturer and supplier of OEM quality replacement compressor parts.

Lau Industries is the recognized global leader in manufacturing air moving components and fan systems for the heating, Ventilation, Air Conditioning (HVAC) and Refrigeration Industries. Lau specializes in offering a diverse product line of residential and commercial heating air conditioning components and fan systems unparalleled by any other domestic air moving manufacturer.

Sporlan has had a reputation for manufacturing some of the best components in the HVACR industry for over that Sporlan offers include pressure regulating valves, temperature controls, solenoid valves, thermostatic expansion valves, refrigeration controls and oil controls.

REFCO Switzerland is the Manufacturer of high-quality heating, ventilation, conditioning and refrigeration service products. The company offers vacuum pumps, recovery and recycling equipment, pressure gauges, vacuum gauges, charging hoses charging scale , electronic leak detectors and condensate pumps

## Nortec

Nortec copper fittings, refrigeration coils and ACR tube are dehydrated cleaned and capped (degassed) to ensure tube reaches customer in pure, defect-free state. ACR tube is according to ASTM B 280, B 819 standards.

Siam Compressor Industry Co., Ltd (SCI) is Thailand first manufacturer of rotary compressors for air conditioning applications, was founded May 25 1990 ,which was managed and arranged by Mitsubishi Electric Corporation of Japan, an expert in the production of compressors with over 70 years of experience.

Cubigel compressors are manufacture in barcelona by huayi compressor barcelona ,S.L. part n of huayi compressor Co. LTD, and specializes in designing manufacturing and selling hermetic and specializes in designing manufacturing and selling hermetic Compressors and condensing unit for the light commercial refrigeration

## Browning

Browning products include v-belt drives and a broad spectrum of power transmission products such as gearing ,bearings couplings and other drive components.

Ceta Form is a 30year-old specialized manufacturer,especially on the electronics and various other trades.development and production of premium quality hand tool for mechanics, electronics and various other trades.

## Honeywell

Honeywell has many brands that commercial and retail consumers may recognize , including its line of home thermostats. In additio to consumer home products , honeywell produces sensors , security alarm systemes and air cleaners amd dehumidifiers

Rivacold was originally established in 1996 as a supplier of condensing units and hermetic systms to manufacturer of refrigerated counters and cabinets . it provides wide range of condensing units and evaporators that are widely used around the world

Grand Air Condionting is a major manufaacturer for full range of AC units. The company manufactures Wall Mounted Split Units, Ducted Split Units, and Floor Standing Units in various capacities.
