Company Profile

Oscar Trading & Technical Services W.L.L is newly found company which specializes in consultation, design, manufacture, installation and maintenance of refrigeration and kitchen equipment for major retailers, discerning hotels, restaurants, coffee shops, fast food chains, palaces, hospitals, cafeterias and bakeries.

We are committed to improving the working lives of our customers by engineering solutions that make kitchen equipment safer, more efficient, and exceptionally cost-effective. Our product innovations are focused on saving energy and helping customers to grow their businesses; a philosophy that is facilitated by the fact that the company sources only the finest materials and employs the latest technology.

From the initial product inception stage, the company carries out extensive prototype testing and design proving for both custom built and standard products, using ground-breaking tools and techniques. During manufacture rigorous quality checks are regularly made to ensure that the final product not only meets but also exceeds customer expectations.

Dedicated to delivering product and service excellence, our business model and equipment portfolio have been created to respond to our customers' requirements to deliver ever greater levels of quality and value: our highly trained and dedicated team of engineers using years of analytical skills, practical experience and creative talents to provide leading edge and commercially astute solutions.

With our main factory in Ajman, UAE and support centres in all GCC countries, we are able to cater to your refrigeration and kitchen equipment needs across the GCC.

Quality Policy

We are committed to delight our customers by providing reliable, energy efficient, sustainable and cost-effective kitchen, refrigeration and retail solutions which would help to make this world a better place by conserving energy for the current and future generations.

We shall achieve this by:-

- 1) Providing superior quality products and services within budget and timeframe.
- 2) Ensuring continual improvement in our processes & operations.
- 3) Effective use of innovation and technology in our products and services.
- 4) Building a performance and growth culture for colleagues.
- 5) Maintaining integrity and genuineness across the organization.
- 6) Complying with applicable legal & statutory requirements.
- 7) Establishing & maintaining mutually beneficial relationship with all stake holders.

Environment, Health and Safety Policy

COMMITMENT

We strive to provide a healthy and safe work environment. This is not just a moral and legal responsibility but also a prerequisite for the company to achieve its primary mission to conduct research, carry out analysis, providing consulting services and promote its strategic environment and health process at the highest international standards through the attraction and retention of high quality staff and other working partners. This commitment to protecting people and property also extends to ensuring company's operations do not place the community at any risk of injury, illness or property damage.

POLICY STATEMENT

To achieve this, the managers & all key personnel shall:

- 1) Adopting a risk management approach which is consistent with the nature of tasks and activities.
- 2) Providing and maintaining safe workplaces, plant and systems of work;
- 3) Treat the environmental aspects of any work activity with equal value to commercial and quality aspects.

Environment, Health and Safety Policy - Contd.

POLICY STATEMENT Contd...

To achieve this, the managers & all key personnel shall:

- 4) Comply with applicable EHS laws and regulations pertaining to the country of operation.
- 5) Support the identification of environmental impacts in work activities.
- 6) Ensuring Zero accidents, incidents or occupational harm by identifying hazards and assessing risks.
- 7) Ensure that all members of the senior management have the prime responsibility for health and safety and they demonstrate this obligation through their actions.
- 8) Encourage the reporting of unsafe acts & conditions and the actions to improve performance.
- 9) Do their best to minimize the environmental impact of our activities by preventing pollution and minimizing waste.
- 10) Investigate all events where injuries, damage to property or the environment has occurred including all near miss incidents where there was high potential to cause injury or damage.
- 11) Providing and maintaining safe workplaces, plant and systems of work;
- 12) Providing information, instruction, training and supervision to ensure safe systems of work;
- 13) Ensuring that nominated safety personnel are adequately trained and supported
- 14) Consulting and cooperating with health and safety representatives, workers and others; providing and maintaining personal protective equipment as required; and continuously reviewing and improving its safety performance.

All people working within the company have an obligation to follow these principles fully. By doing so, we create a working culture that continuously strives to improve environmental performance and a working environment where harm is reduced to a level, which is as low as reasonably practical.
