## ABOUT US

Penta Trading Group WLL serves industrial, commercial, and residential customers by professionally fulfilling their refrigeration needs. It has become a name to reckon with in the burgeoning Qatar region since 2005 and is expanding further to other metropolitan markets in the larger GCC. Penta plays the role of a contractor, distributor, and after-sales service provider with élan and offers end-to-end solutions to our customers. The top-notch service we have offered for the last 17 years have built a reputation for quality and trust in the market and become the first priority in the mind of our customers. We enjoy fruitful and exclusive relationship with International manufacturers and distributors in the field. We also create an ambiance for enterprising professionals to work together for a common goal of welfare. We are committed to the planet by reducing the carbon footprints to the maximum.

# VISION & MISSION

## Vision

Penta trading aims to expand its business to other GCC countries. The planet has a less promising future with industries increasingly contributing to the carbon footprint. Refrigeration sector also takes much of the blame. Our vision is to create more feasible future for our customers, our society and our earth

## Mission

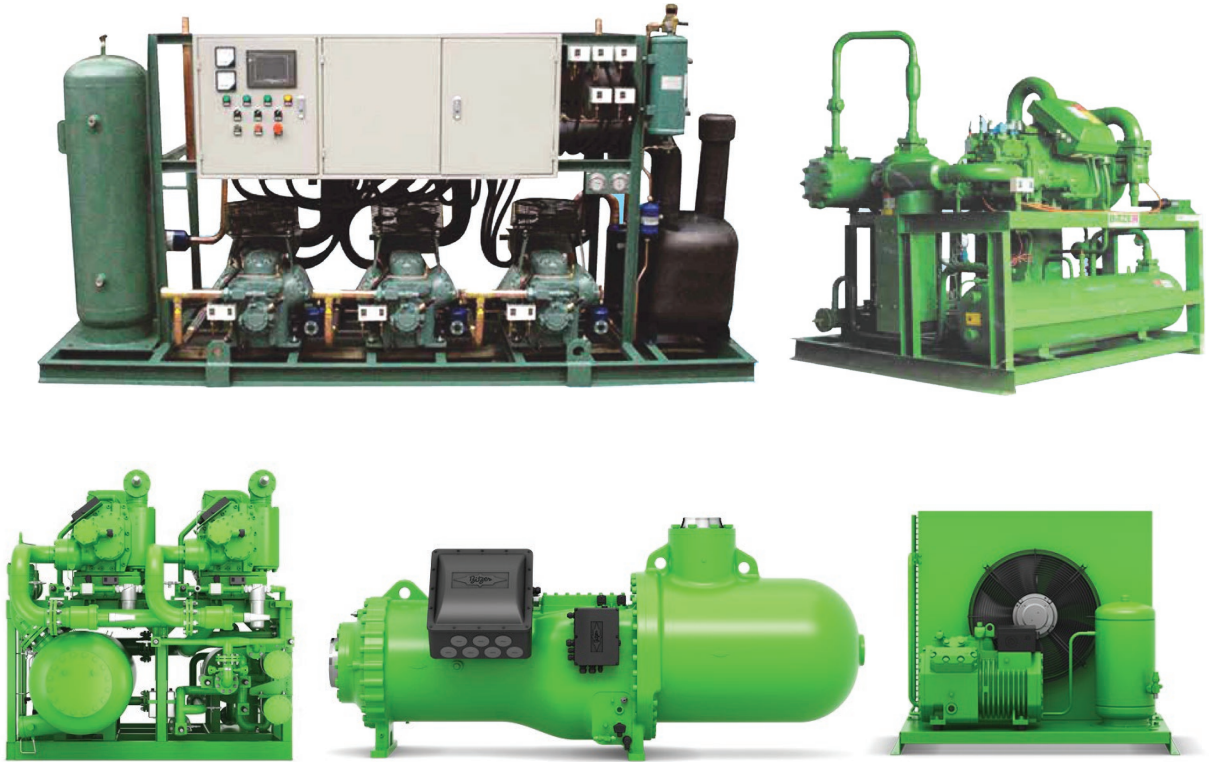

We take a no compromise approach to quality in procurement and delivery in all aspects of our business. We liaise with international brands to make available in the market the state-of-the-art technology in refrigeration so that all our customer segments—domestic, commercial, and industrial—keep reposing faith in us. We ensure to recruit a dedicated and content workforce to ensure the optimum in service.

We continuously improve our products, services, processes, and procedures. Our alliances with professional, reliable suppliers whose new technologies and materials, innovative ideas, especially those aiming to reduce the noise level and cost awareness contribute to the ongoing optimization of our products. Our technological and engineering excellence helps us deliver impactful solutions for our customers.

## SERVING YOU COOL, AND IN STYLE

Apace with the growth of Qatar as a haven for global business, Penta Trading Group W.L.L carves a niche. We offer end-to-end solutions to our customers, which make a difference in the market and tell us from others. We pride ourselves on professional flair in all components of our products and service.

Penta Trading Group has business alliances with world-renowned technology leaders, such as Bitzer and Güntner, Germany; Emerson, Robinair, and Mueller, USA; Danfoss, Denmark; Hioki, Japan; and many others, to offer superior products and solutions to customers. We cater to both the long-term and emergency requirements in no time. We help our industrial customers grow with technological evolution, an indispensable requirement in the largely interconnected market. We help them select the correct product for their industrial needs.

## A SURE DESTINATION TO RELY ON AFTER SALES

To maintain service quality is integrated into the professional commercial practice of helping you choose the best products. We follow up this with service being offered at the right time. Our service team makes your product endure long; and our name will surely linger in your mind longer. We currently maintain an inventory of QAR 10 Million. That is nothing more than what it means for a business tradition of 17 years: it is a testimony to the trust that our valuable customers have put in us.

## FULFILLED WORKFORCE; FULFILLING PROMISES

Penta Trading Group has built its trust from values it cherishes. We are a team of determined and like-minded individuals with no hierarchy. We don't believe in bossing or imposing—bossing around and creating a system of command where employees work with fear. The team atmosphere we have created is such that everyone in the team feels safer and has a sense of fulfilment to carry out even the most tiring tasks. And Penta trading group is an institution with a stricter command chain, but a team of satisfied individuals who offer the maximum of their capabilities. And it was this value that has been reflected in the trust that our customers have reposed in us.

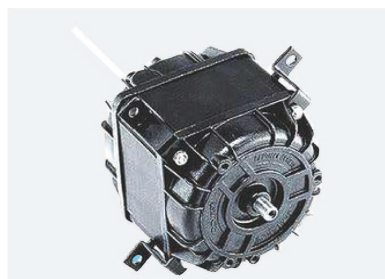

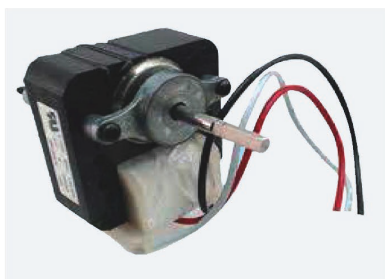

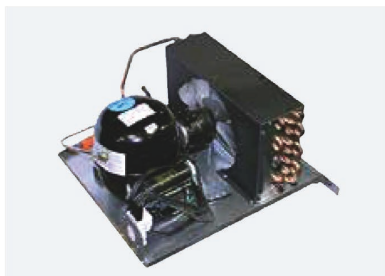

## ENSURING THE BEST AND ENVISAGING THE FINEST

We have met with challenges and setbacks in this path. However, challenges have forced us to refine our process to face them headon. All markets are volatile, especially the sector of refrigeration and air-conditioning. We have partnership with leading manufactures to bring out the best quality products to the markets.

We have trained our staff using seminars and workshops about the industrial standards to maintain and ethical guidelines to follow.

Though we locate ourselves in the fertile soil of Qatar, we envisage a future where we will be a name to reckon with, and rely on, in other GCC counties in a foreseeable future. We aim to meet the refrigeration requirements in the nation and other leading nations around us.

And, finally, we believe we can become a safer place to work and introduce the best standards in the sector.
