

COMPANY PROFILE

شركة قطر للعوازل
Qatar Insulation Company

ABOUT US

A leading supplier of Insulation products, Qatar Insulation Company has proven track record in delivering excellent customer service. This was achieved by its team with market awareness and its commitment to meet the customer's delivery requirements. Qatar Insulation Company can cater to a variety of insulation requirements in the construction field and can propose solutions to customers. Qatar Insulation represents almost the entire range of insulation products like Kimmco for Glass wool insulation, Armacell for Nitrile rubber insulation, Rockwool and Ceramic fiber insulation for high temperature applications and others.

VISION

Our Vision is to be a leader in this industry for Qatar by 2030, providing industry-leading solutions and becoming the partner of choice to our customers, partners and employees whilst adhering to our core values."

MISSION

"Our Mission is to be a complete Insulation provider to the customer."

OUR HISTORY

Founded in 2001 with only KIMMCO fiberglass insulation as its sole product to represent. Qatar Insulation has evolved over the years and is now able to offer engineering solutions for any type of Insulation requirements. Qatar Insulation has a wide range of insulation products to suit any application- Air-conditioning, Ventilation, Kitchen extract, Facade, Partitions, Oil field etc. In 2016 Qatar Insulation launched its own brand "Jersey Tape "that cater the HVAC segment. Qatar Insulation now represents insulation products that can cater cryogenic to furnace applications. Major manufacturer representation includes KIMMCO, ARMACELL, ROCKWOOL, MORGAN, FEVICOL etc.

OUR PRODUCTS

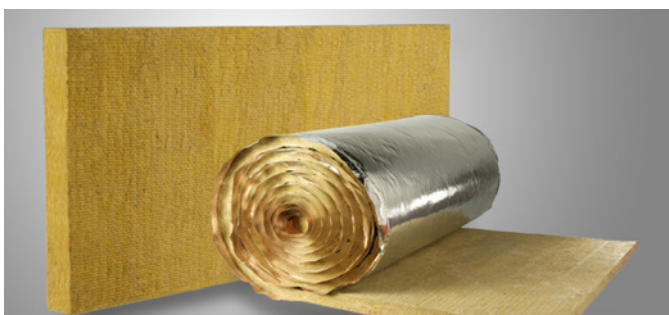

OUR PRODUCTS

KIMMCO Glasswool Insulation

KIMMCO provides insulation solutions for HVAC, building (roofs, walls, floors, metallic buildings) and technical/industrial applications. KIMMCO is certified to ISO 9001, ISO 14001 and OHSAS 18001, and is compliant with ISO, ASTM, DIN, BS and other international standards. KIMMCO is committed to manufacturing sustainable and eco-friendly insulation products that help protect and preserve the environment, to ensure a green future.

KIMMCO ROCKWOOL Insulation

KIMMCO ISOVER is manufacturing high quality stone wool insulation materials in different shapes (slab, wired mat, roll, pipe section & loose wool) for all types of buildings (residential & non-residential) and industrial facilities.

ARMACELL Elastomeric Rubber Insulation

Armaflex, the first flexible insulation product. In doing so, it established a new branch of industry – flexible technical insulation – that it has been shaping ever since. Armaflex is now the world's best-known brand for flexible technical insulation and the brand name has become a synonym for flexible foam insulation in the building materials industry. Customers include building and equipment operators and specifiers from various sectors as well as installers and end customers all over the world.

MORGAN Ceramic Fiber Insulation

FireMaster® blanket range provides fire protection materials capable of fire protection at high temperatures for extended periods of time. The operating temperature of the material being 1200°C for extended time.

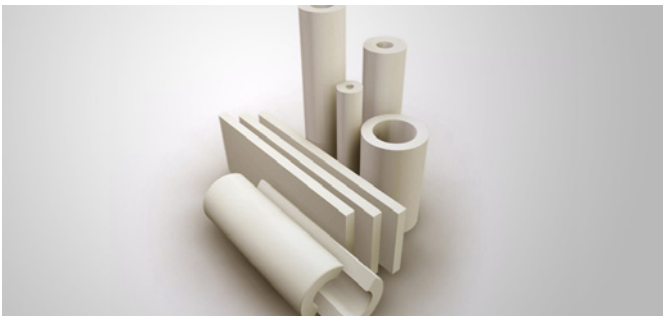

OUR PRODUCTS

FEVICOL Adhesives, Coating & Sealant

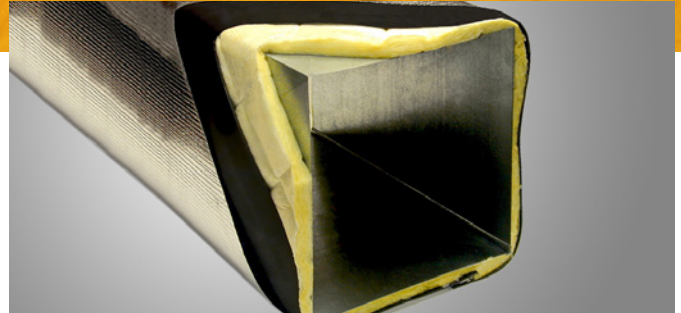

Pidilite is a consumer-center Company committed to quality and innovation. Its HVAC range is known to be a one-stop solution for any air conditioning ducting and insulation requirements. We offer comprehensive solution for an energy-efficient performance that suits your needs. Our products are certified (UL, ASTM, DCL), and approved by leading consultants across the world.

HYSIL Calcium Silicate Insulation

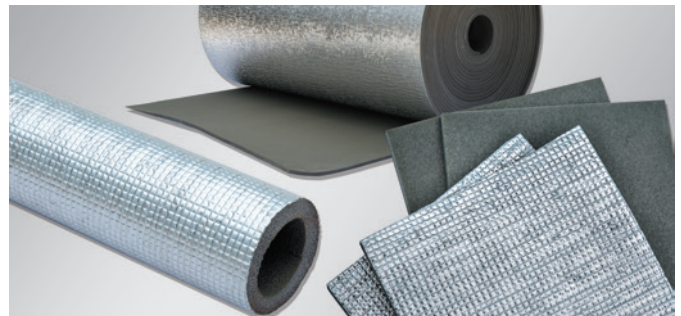

HYSIL, a revolutionary brand in green industrial insulation, is a pre-formed, high temperature, abuse-resistant pipe and block insulation with exceptional structural strength. Composed of Hydrous Calcium Silicate (Calsil), it is designed for use on systems operating up to 1100°C.

SOUND SEAL Acoustic Lagging

HVAC duct lagging product line is designed to offer significant reduction of radiated noise from HVAC duct casings. The lagging can be applied to rectangular or round duct and pipe systems. Industrial Pipe & Duct Wraps are mass loaded noise barriers with a reinforced foil facing on one side that allows for installation of matching lag tape.

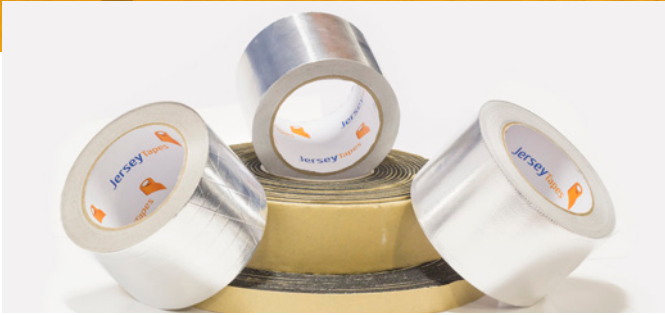

AEROLAM XLPE polyolefin Insulation

Aerolam Duct Insulation is specially designed for HVAC Duct insulation and various different applications for thermal insulation. Closed-cell and chemically cross linked Polyethylene Foam is non fibrous and Fire retardant.

OUR PRODUCTS

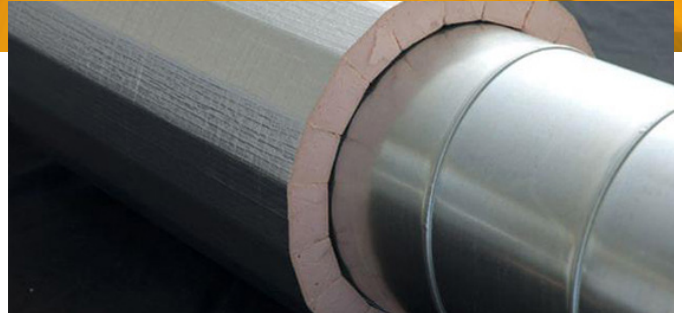

JERSEY TAPES

Self-Adhesive Tapes

Jersey Self-adhesive tapes is a premium quality tape specifically build for Aluminum,FSK,Aluglass range of insulation products in the HVAC industry. High quality products are used for its construction like, a thicker gauge of aluminum foil, FR Glue, Glass cloth with a high yarn count backing, solvent based adhesive & an easy release silicon paper.

Class 'O'

GULF COOL

THERM Insulation

Gulf Cool Therm Factory, provides Polyurethane, Polyisocyanurate, Phenolic Foam, Foam Glass and Pre-Insulated Piping Systems, has many diverse applications in Air-Conditioning Systems, Oil, Petrochemical, Process plant and General Insulation Industries. Also, Polyurethane Spray Foam for Heat Insulation and Water Proofing Systems.

Rehau

RAUTITAN PEX-A PIPE

RAUTITAN pipes are made from high density cross-linked polyethylene (PEXa). The cross linking process causes the individual polyethylene molecules to bond in a three-dimensional network creating a tough and durable pipe with superior: long-term stability - high temperature resistance and - high pressure resistance - superior flexibility and strength. These Pex-A pipes are most commonly used for unfloor cooling or heating purposes and is guaranteed a long life span despite being laid under the floor.

DURALINE

HDPE Ducts

Dura-Line is leading the telecommunications market by offering not only the most complete product offering, but the most innovative products in the HDPE industry. Silicore & Wave Ribbed products allow for the fastest cable installation while achieving the longest installation distances in the industry, lowering the cost of projects.

OUR MARKET

We primarily focus on Insulation business in the MEP segment. However our products and services cater other Civil and Oil field segment.

Following are the main areas where our business is focused on:-

- HVAC Ducting
- Chilled water, Hot & Cold piping
- Condensate & Refrigerant piping.
- Acoustic Lining of ducts.
- Acoustic Barrier for ducts and Pipes.
- External Cladding of pipes & ducts.
- Pre-Insulated ducts.
- Smoke & Kitchen Exhaust Ducting.
- Adhesive, Coatings & Sealants.
- Tapes for HVAC applications.
- Façade, Partition and Ceilings.
- Fire stop applications.
- Industrial Insulation (Hot, Cold, Cryogenic & Acoustic)
- Refractories (Ceramic fiber)
- Acoustic under lay for floors
- HDPE Ducts for Telecommunication applications.
