

# QATAR SCALES

AN ISO 9001:2015 AND ISO 17025 CERTIFIED COMPANY

Since 1993, QATAR SCALES has built upon its reputation for product quality, technical innovation, fast and effective customer support.

Qatar Scales has developed as one of the leading weighing scales operators in Qatar, serving a different type of customers in the categories namely cement, sand, aggregate, food, quarry, oil, gas, air and so on...

A company with qualified and experienced staff and its professional solutions supported by an extensive product portfolio; in weighing industry with a chosen provider for considering electronics, load cells, industrial weighing solutions.

We deliver weighing products that integrate productivity, compliance, quality and safety into your weighing systems and solutions.

We dedicate ourselves in satisfying our customers by offering specialized weighing equipment, as well as installing, operating and training the end users.

In order to supply refined and precise weighing instruments, Qatar Scales continuously invests in technology development by sending their service people overseas for training and also performing in-house training services.

Qatar Scales forms a conception in multiple services integrated by planning, fabricating, marketing, managing and maintaining rather than purely selling and servicing.

Since the establishment of Qatar Scales firm alliances has been formed and developed steadily on the basis of reliable technology and primary strength and experience in this field to become the leading enterprise in Qatar Weighing Industry.
